Louder, Stephen R.; Notice of Filing

December 13, 2007.

Take notice that on December 12, 2007, pursuant to section 305(b) of the Federal Power Act, 16 U.S.C. 825d(b) (2006), Part 45 of the Commission's Rules of Practice and Procedure, 18 CFR part 45 (2006), and Order No. 664, *Commission Authorization to Hold Interlocking Positions*, 112 FERC ¶ 61,298 (2005); *order on reh'g*, 114 FERC ¶ 61,142 (2006), Stephen R. Louder filed a revised page 1 and page 7 of his application for authorization to hold interlocking positions. The revision on page 1 deletes the word "Director" in the second line of the first paragraph under Introductions and replaces that language with "Secretary/Treasurer" to correct an inadvertent typographical error. The revision on page 7 eliminates language relating to the confidential nature of Mr. Louder's estimated 2007 compensation from Golden Spread and inserts in lieu thereof the estimated value for that compensation.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant and all the parties in this proceeding.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission,

Ice House Partners, Inc.; Notice of Availability of Environmental Assessment

December 13, 2007.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 FR 47879), the Office of Energy Projects has reviewed the application for exemption from licensing for the Ice House Power Project, to be located on the Nashua River, in the Town of Ayer, Middlesex County, Massachusetts, and has prepared an Environmental Assessment (EA). In the EA, Commission staff analyze the potential environmental effects of the project and conclude that issuing an exemption for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
