

business manufacturer or processor, if the recipient is other than the actual manufacturer or processor of the product. This requirement is commonly referred to as the Nonmanufacturer Rule. The SBA regulations imposing this requirement are found at 13 CFR 121.406(b). Section 8(a)(17)(b)(iv) of the Act authorizes SBA to waive the Nonmanufacturer Rule for any "class of products" for which there are no small business manufacturers or processors available to participate in the Federal market.

As implemented in SBA's regulations at 13 CFR 121.1202(c), in order to be considered available to participate in the Federal market for a class of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal government within the last 24 months. The SBA defines "class of products" based on six digit coding systems. The first coding system is the Office of Management and Budget North American Industry Classification System (NAICS). The second is the Product and Service Code required as a data entry field by the Federal Procurement Data System.

The SBA received a request on October 23, 2007 to waive the Nonmanufacturer Rule for Electromedical and Electrotherapeutic Apparatus Manufacturing, Diagnostic equipment, MRI (magnetic resonance imaging) manufacturing; Magnetic resonance imaging (MRI) medical diagnostic equipment manufacturing; Medical ultrasound equipment manufacturing; MRI (magnetic resonance imaging) medical diagnostic equipment manufacturing; Patient monitoring equipment (e.g., intensive care coronary care unit) manufacturing; PET (positron emission equipment tomography) scanners manufacturing; and Positron emission tomography (PET) scanners manufacturing. In response, on November 15, 2007, SBA published in the **Federal Register** a notice of intent to waive the Nonmanufacturer Rule for Electromedical and Electrotherapeutic Apparatus Manufacturing, Diagnostic equipment, MRI (magnetic resonance imaging) manufacturing; Magnetic resonance imaging (MRI) medical diagnostic equipment manufacturing; Medical ultrasound equipment manufacturing; MRI (magnetic resonance imaging) medical diagnostic equipment manufacturing; Patient monitoring equipment (e.g., intensive care coronary care unit) manufacturing; PET (positron emission equipment tomography) scanners manufacturing; and Positron emission tomography

(PET) scanners manufacturing. SBA explained in the notice that it was soliciting comments and sources of small business manufacturers of this class of products.

In response to this notice, a comment was received from an interested party, however, no small business manufacturing sources were discovered. SBA has determined that there are no small business manufacturers of this class of products, and is therefore granting the waiver of the Nonmanufacturer Rule for Electromedical and Electrotherapeutic Apparatus Manufacturing, Diagnostic equipment, MRI (magnetic resonance imaging) manufacturing; Magnetic resonance imaging (MRI) medical diagnostic equipment manufacturing; Medical ultrasound equipment manufacturing; MRI (magnetic resonance imaging) medical diagnostic equipment manufacturing; Patient monitoring equipment (e.g., intensive care coronary care unit) manufacturing; PET (positron emission equipment tomography) scanners manufacturing; and Positron emission tomography (PET) scanners manufacturing, NAICS 334510.

**SUPPLEMENTARY INFORMATION:**

**Background**

DOT's Office of Inspector General recommended, in its audit report, entitled "Actions Needed to Minimize Long, On-Board Flight Delays," issued on September 25, 2007, that the Secretary of Transportation establish a national task force of airlines, airports, and the Federal Aviation Administration to coordinate and develop contingency plans to deal with lengthy delays, such as working with carriers and airports to share facilities and make gates available in an
