RIN 0648-XE51

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public telephone conference meeting.

SUMMARY: The Pacific Fishery Management Council's (Council) Salmon Technical Team Klamath Subcommittee (STTKS) will hold a work session by telephone conference with members of the Yurok and Hoopa Tribes and additional agency personnel from the NMFS, United States Fish and Wildlife Service, and the California Department of Fish and Game to continue review and development of an overfishing assessment for Klamath River fall Chinook (KRFC). This meeting of the STTKS is open to the public.

DATES: The telephone conference will be held on Tuesday, January 8, 2008, from 8 a.m. to 4 p.m. and Wednesday, January 9, 2008, from 8 a.m. to 3 p.m.

ADDRESSES: A listening station for the public will be available at the Pacific Fishery Management Council, Small Conference Room, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384; telephone: (503) 820-2280.

FOR FURTHER INFORMATION CONTACT: Mr. Chuck Tracy, Salmon Management Staff Officer, Pacific Fishery Management Council; telephone: (503) 820-2280.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to further develop a report to assess the cause of KRFC failing to meet the 35,000 adult

natural spawner conservation objective, and the implication to the long-term productivity of the stock not meeting that objective, for three consecutive years.

When a salmon stock managed by the Council fails to meet its conservation objective for three consecutive years, an overfishing concern is triggered according to the terms of the Pacific Coast Salmon Plan (Salmon Plan). The Salmon Plan requires the Council to direct its Salmon Technical Team to work with relevant agency and tribal personnel to undertake a review of the status of the stock in question and determine if excessive harvest was responsible for the shortfall, if other factors were involved, and the significance of the stock depression with regard to achieving maximum sustainable yield.

Although non-emergency issues not contained in the meeting agenda may come before the STTKS for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

SUPPLEMENTARY INFORMATION: The Council is considering modifying the entry requirements for the rock shrimp limited access program. Vessels with the limited access endorsements are required to show documented landings of at least 15,000 pounds of rock shrimp from the South Atlantic Council's area of jurisdiction in one out of four calendar years to retain the endorsement. The initial four-year period began in 2004 and will end December 31, 2007. The Council is also considering a requirement for all commercial shrimp vessel permit holders in the South Atlantic to provide economic data if selected.

South Atlantic Fishery Management Council, Caribbean Fishery Management Council and Gulf of Mexico Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of a scoping meeting.

SUMMARY: The South Atlantic, Caribbean, and Gulf of Mexico Fishery Management Councils (Councils) will hold a public scoping meeting regarding amending the spiny lobster fishery management plan to address the importation of spiny lobster products that do not meet U.S. conservation standards. The amendment will examine various alternatives to restrict imports of spiny lobster into the United States to a minimum acceptable length and/or weight. Spiny Lobsters are currently being imported below the U.S. minimum size limits. Much of the imported lobster does not meet the minimum size limits in the country of origin. This is adversely impacting recruitment throughout Florida and the Caribbean and, as a result, the status of spiny lobster in Caribbean and U.S. waters because of the distribution and dispersal of larvae.

DATES: The public scoping meeting will be held January 24, 2008, beginning at 6 p.m.

ADDRESSES: The meeting will be held at the Islander Hotel, 82100 Overseas Highway, Islamorada, FL 33036; telephone: (800) 753-6002 or (305) 664-2031. Written comments must be received in the South Atlantic Council's office by 5 p.m. on January 28, 2008.
