After completing that review, the Secretary will consider whether to change some or all of the published waivers and modifications. Any changes to these waivers and modifications will be published in a notice in the **Federal Register** as required by the HEROES Act of 2003.

#### Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; North Carolina; Redesignation of the Raleigh-Durham-Chapel Hill 8-Hour Ozone Nonattainment Area to Attainment for Ozone

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** EPA is taking final action to approve a request submitted on June 7, 2007, from the State of North Carolina, through the North Carolina Department of Environment and Natural Resources (NCDENR), to redesignate the Raleigh-Durham-Chapel Hill 8-hour ozone nonattainment area to attainment for the 8-hour ozone National Ambient Air Quality Standard (“NAAQS”, or “standard”). The Raleigh-Durham-Chapel Hill 8-hour ozone area is comprised of Durham, Franklin,

Granville, Johnston, Orange, Person and Wake Counties in their entireties, and Baldwin, Center, New Hope and Williams Townships in Chatham County in North Carolina (hereafter referred to as the “Triangle Area”). EPA’s approval of the redesignation request is based on the determination that North Carolina has demonstrated that the Triangle Area has met the criteria for redesignation to attainment specified in the Clean Air Act (CAA), including the determination that the Triangle Area has attained the 8-hour ozone standard. Additionally, EPA is approving a revision to the North Carolina State Implementation Plan (SIP) including the 8-hour ozone maintenance plan for the Triangle Area that contains the new subarea 2008 and 2017 motor vehicle emission budgets (MVEBs) for nitrogen oxides (NO<sub>x</sub>), and an insignificance determination for volatile organic compounds (VOCs) contribution from motor vehicle emissions to the 8-hour ozone pollution in the entire Triangle Area. Through this action, EPA is also finding the new subarea 2008 and 2017 NO<sub>x</sub> MVEBs, and the VOC insignificance determination, adequate for the purposes of transportation conformity. The above described actions were proposed for public comment on October 3, 2007; no comments were received. EPA is also making corrections to inadvertent errors made in the proposed rulemaking published on October 3, 2007, (72 FR 56312) to Tables 1, 6, and 7.

**DATES:** *Effective Date:* This action is effective December 26, 2007.

#### I. What Is the Background for the Actions?

On June 7, 2007, North Carolina, through NCDENR, submitted a request to redesignate the Triangle Area to attainment for the 8-hour ozone standard, and for EPA approval of the North Carolina SIP revision containing a maintenance plan for the Triangle Area. In an action published on October 3, 2007 (72 FR 56312), EPA proposed to approve the redesignation of the Triangle Area to attainment. EPA also proposed approval of North Carolina’s SIP revision including a plan for maintaining the 8-hour NAAQS as a SIP revision, and proposed to approve the new subarea<sup>1</sup> 2008 and 2017 NO<sub>x</sub> MVEBs, and the VOC insignificance determination for the Triangle Area that were contained in the maintenance plan. In the October 3, 2007, proposed action, EPA also provided information on the status of its transportation conformity adequacy determination for the Triangle Area subarea NO<sub>x</sub> MVEBs and VOC insignificance determination. EPA received no comments on the

<sup>1</sup> The term “subarea” refers to the portion of the area, in a nonattainment or maintenance area, for which the motor vehicle emissions budgets (MVEBs) apply. In this case, the “subareas” are established at the county level so this indicates that the MVEBs cover individual counties and also indicates to transportation conformity implementers in this area that there are separate county-level MVEBs for each county in this area. EPA’s *Companion Guidance for the July 1, 2004, Final Transportation Conformity Rule: Conformity Implementation in Multi-Jurisdictional Nonattainment and Maintenance Areas for Existing and New Air Quality Standards* explains more about the possible geographical extent of a MVEB, how these geographical areas are defined, and how transportation conformity is implemented in these different geographical areas.
