DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Marine Recreational Fisheries Statistics Survey.

OMB Approval Number: 0648-0052.

Form Number(s): None.

Type of Request: Regular submission.

Burden Hours: 272 new burden hours.

Number of Respondents: 3,750 new respondents.

Average Hours per Response: 1 minute for anglers with no trips in past year; 7 minutes for anglers with trips in past year.

Needs and Uses: Recent amendments to the Magnuson-Stevens Fishery Conservation and Management Act require that the Marine Recreational Fisheries Statistics Survey (MRFSS) be upgraded and that future fishing surveys target anglers licensed or registered at the State or Federal level. This revision is requested to expand previously approved angler license directory surveys (ALDS) into North Carolina, which recently implemented a saltwater fishing license. Information collected through the ALDS will be integrated with data collected through the MRFSS Coastal Household Telephone Survey in a dual-frame approach to provide more complete coverage of the angling population. The results of this data collection effort will be used to calculate bi-monthly estimates of marine recreational fishing participation, effort and catch.

Affected Public: Individuals or households.

Frequency: Annually.

Respondent's Obligation: Voluntary.
OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, Fax number (202) 395-7285, or David_Rostker@omb.eop.gov.

Dated: December 19, 2007.

SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans to request a revision of the current Office of Management and Budget (OMB) clearance of the Survey of Housing Starts, Sales and Completions, also known as the Survey of Construction (SOC). The SOC collects monthly data on new residential construction from a sample of owners or builders. The Census Bureau uses the Computer-Assisted Personal Interviewing (CAPI) electronic questionnaires SOC-QI/SF.1 and SOC-QI/MF.1 to collect data on start and completion dates of construction, physical characteristics of the structure (floor area, number of bathrooms, type of heating system, etc), and if applicable, date of sale, sales price, and type of financing. The SOC provides widely used measures of construction activity, including the economic indicators Housing Starts and Housing Completions, which are from the New Residential Construction series, and New Residential Sales.

The current clearance for this survey is scheduled to expire on June 30, 2009. We are rewriting the CAPI questionnaire software and are requesting approval to begin using the revised questionnaire in the field in early summer of 2008. The revised questionnaire will include about 5 new data items requested by data users. Other information which is no longer needed will be eliminated from the questionnaire. The overall length of the interview will not change.

Census samples about 1,850 new buildings each month (22,200) per year. We inquire about the progress of each building multiple times until it is completed (and a sales contract is signed, if it is a single-family house that is built for sale). We conduct an average of 7.9 interviews for each building sampled. The total number of interviews conducted each year is about 175,380. Each interview takes 5 minutes on
