

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State, Tribal, or local governments, and individuals or households.

Estimated Number of Respondents: 7,970.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 71,165 hours, which includes an estimated 40,185 hours for States and 30,980 hours for communities.

Estimated Total Annual Cost: \$572,415, which includes an estimated \$61,245 for States and \$511,170 for communities. There are no capital/O&M costs.

Changes in the Estimates: There is no change in the burden for this ICR. Cost models were updated to reflect wage inflation. While currently approved O&M costs are listed as \$850,000 and are updated in the current ICR, they have been removed from the cost estimate listed above because they are reimbursed in full by the Federal government, and thus effectively impose no burden on state governments.
