[No. 946-007-Utah]

Hyrum City Hydroelectric Project; Notice of Availability of Environmental Assessment

December 20, 2007.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for a subsequent license for the Hyrum City Hydroelectric Project, and has prepared an Environmental Assessment (EA). The operating project is located on Blacksmith Fork River in Hyrum City, Cache County, Utah. The project affects

about 17.03 acres of federal lands within the Wasatch Cache National Forest.

The EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
