

comment period on the draft EIS will extend 45 days from the date the EPA notice appears in the **Federal Register**. At that time, copies of the draft EIS will be distributed to interested and affected agencies, organizations, and members of the public for their review and comment. It is very important that those interested in the management of the Plumas National Forest participate at that time.

The final EIS is scheduled to be completed in December, 2008. In the final EIS, the Forest Service is required to respond to comments received during the comment period that pertain to the environmental consequences discussed in the draft EIS and applicable laws, regulations, and policies considered in making the decision. Submission of comments is a prerequisite for eligibility to appeal under the 36 CFR part 215 regulations.

Comment Requested

This notice of intent initiates the scoping process which guides the development of the environmental impact statement.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519,553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and

respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft environmental impact statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

Continuation of Antidumping Duty Order on Low Enriched Uranium From France

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determination by the Department of Commerce (the Department) and the International Trade Commission (ITC)

that revocation of the antidumping duty order on Low Enriched Uranium (LEU) from France would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, the Department is publishing a notice of continuation for this antidumping duty order.

DATES: *Effective Date:* January 3, 2008.

Contact Information: Douglas Kirby or Dana Mermelstein, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-3782 or (202) 482-1391, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department initiated and the ITC instituted sunset reviews of the antidumping duty order on LEU from France, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). *See Initiation of Five-Year (“Sunset”) Reviews*, 72 FR 100 (January 3, 2007) (*Notice of Initiation*).

As a result of its review, the Department found that a revocation of the antidumping duty order would likely lead to a continuation or recurrence of dumping, and therefore notified the ITC of the magnitude of the margins likely to prevail were the order to be revoked. *See Final Results of Expedited Sunset Review: Countervailing Duty Order on Low*
