[Docket ID PHMSA-2007-28505]

Pipeline Safety: Requests for Special Permits

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA); DOT.

ACTION: Notice.

SUMMARY: The Federal pipeline safety laws allow a pipeline operator to request PHMSA to waive compliance with any part of the Federal pipeline safety regulations. We are publishing this notice to provide a list of requests we have received from pipeline operators seeking relief from compliance with certain pipeline safety regulations. This notice seeks public comment on these requests, including comments on any environmental impacts. In addition, this notice reminds the public that we have changed what we call a decision granting such a request to a special permit. At the conclusion of the comment period, PHMSA will evaluate each request individually to determine whether to grant a special permit or deny the request.

DATES: Submit any comments regarding any of these requests for special permit by February 4, 2008.

ADDRESSES: Comments should reference the docket number for the request and may be submitted in the following ways:

SUPPLEMENTARY INFORMATION:

Change in Nomenclature

PHMSA changed the name of a decision we made granting a request for waiver of compliance from “decision granting waiver” to “special permit” to reflect that granting the request will not reduce safety. We commonly add safety conditions to decisions granting waivers to ensure that waiving compliance with an existing pipeline safety standard is consistent with pipeline safety. The change was simply a name change for a decision granting waiver under 49 U.S.C. 60118(c)(1).

Comments Invited on Requests for Waiver

PHMSA has filed in the Federal Docket Management System (FDMS) requests for waivers we have received from pipeline operators seeking relief from compliance with certain pipeline safety regulations. Each request has been assigned a separate docket ID in the FDMS. We invite interested persons to participate by reviewing these requests and by submitting written comments, data or other views. Please include any comments on the environmental impacts that granting the requests may have.

Before acting on any request, PHMSA will evaluate all comments received on or before the comment closing date. We will consider comments received after this date if it is possible to do so without incurring additional expense or delay. We may grant or deny these requests based on the comments we receive.
