

S45500-grade steel, and contains, by weight, 11 to 13 percent chromium and 7 to 10 percent nickel. Carbon, manganese, silicon and molybdenum each comprise, by weight, 0.05 percent or less, with phosphorus and sulfur each comprising, by weight, 0.03 percent or less. This steel has copper, niobium, and titanium added to achieve aging, and will exhibit yield strengths as high as 1700 Mpa and ultimate tensile strengths as high as 1750 Mpa after aging, with elongation percentages of 3 percent or less in 50 mm. It is generally provided in thicknesses between 0.635 and 0.787 mm, and in widths of 25.4 mm. This product is most commonly used in the manufacture of television tubes and is currently available under proprietary trade names such as "Durphynox 17."<sup>3</sup>

Finally, three specialty stainless steels typically used in certain industrial blades and surgical and medical instruments are also excluded from the scope of this order. These include stainless steel strip in coils used in the production of textile cutting tools (e.g., carpet knives).<sup>4</sup> This steel is similar to ASTM grade 440F, but containing, by weight, 0.5 to 0.7 percent of molybdenum. The steel also contains, by weight, carbon of between 1.0 and 1.1 percent, sulfur of 0.020 percent or less and includes between 0.20 and 0.30 percent copper and between 0.20 and 0.50 percent cobalt. This steel is sold under proprietary names such as "GIN4 HI-C." The second excluded stainless steel strip in coils is similar to AISI 420-J2 and contains, by weight, carbon of between 0.62 and 0.70 percent, silicon of between 0.20 and 0.50 percent, manganese of between 0.45 and 0.80 percent, phosphorus of no more than 0.025 percent and sulfur of no more than 0.020 percent. This steel has a carbide density on average of 100 carbide particles per square micron. An example of this product is "GIN5" steel. The third specialty steel has a chemical composition similar to AISI 420 F, with carbon of between 0.37 and 0.43 percent, molybdenum of between 1.15 and 1.35 percent, but lower manganese of between 0.20 and 0.80 percent, phosphorus of no more than 0.025 percent, silicon of between 0.20 and 0.50 percent, and sulfur of no more than 0.020 percent. This product is supplied with a hardness of more than Hv 500 guaranteed after customer processing, and is supplied as, for example, "GIN6."

### Final Results of Review

As noted above, the Department received no comments concerning the Preliminary Results. Therefore, consistent with the *Preliminary Results*, we continue to find the net subsidy for DMC to be 0.03 percent *ad valorem*, which is *de minimis*. See 19 CFR 351.106(c)(1). As there have been no changes to or comments on the *Preliminary Results*, we are not attaching a decision memorandum to this **Federal Register** notice. For further details of the programs included in this proceeding, see the *Preliminary Results*.

### Assessment Rates/Cash Deposits

The Department intends to issue assessment instructions to U.S. Customs and Border Protection ("CBP") 15 days after the date of publication of these final results of this review, to liquidate shipments of subject merchandise by DMC entered, or withdrawn from warehouse, for consumption on or after January 1, 2005, through December 31, 2005, without regard to countervailing duties. We will also instruct CBP not to collect cash deposits of estimated countervailing duties on shipments of the subject merchandise by DMC entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of this review.

For all non-reviewed companies, we will instruct CBP to continue to collect cash deposits at the most recent company-specific or country-wide rate applicable to the company. Accordingly, the cash deposit rates that will be applied to non-reviewed companies covered by this order are those established in the most recently completed administrative proceeding. See *Final Results of Countervailing Duty Administrative Review: Stainless Steel Sheet and Strip in Coils from the Republic of Korea*, 72 FR 120 (January 3, 2007). These rates shall apply to all non-reviewed companies until a review of a company assigned these rates is completed.

### Return of Destruction of Proprietary Information

This notice also serves as a reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply

with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: January 8, 2008.

### National Institute of Standards and Technology

#### Visiting Committee on Advanced Technology

**AGENCY:** National Institute of Standards and Technology Department of Commerce.

**ACTION:** Notice of Public Meeting.

**SUMMARY:** Pursuant to the Federal Advisory Committee Act, 5 U.S.C. app. 2, notice is hereby given that the Visiting Committee on Advanced Technology (VCAT), National Institute of Standards and Technology (NIST), will meet Tuesday, February 5, 2008, from 8:30 a.m. to 5 p.m. and Wednesday, February 6, 2008, from 8 a.m. to 12 p.m. The Visiting Committee on Advanced Technology is composed of fifteen members appointed by the Director of NIST who are eminent in such fields as business, research, new product development, engineering, labor, education, management consulting, environment, and international relations.

The purpose of this meeting is to review and make recommendations regarding general policy for the Institute, its organization, its budget, and its programs within the framework of applicable national policies as set forth by the President and the Congress. Agenda items will include preparation of the VCAT annual report, with break-out sessions for the three sub-committee groups on Information Technology, Nanotechnology, and Biosciences to discuss recommendations made to NIST throughout the year, with input back to the full committee. The agenda may change to accommodate Committee business. The final agenda will be posted on the NIST Web site at <http://www.nist.gov/director/vcat/agenda.htm>.

Anyone wishing to attend this meeting must submit name, e-mail address and phone number to Denise Herbert ([denise.herbert@nist.gov](mailto:denise.herbert@nist.gov)) or 301-975-5607 no later than February 1, 2008.

<sup>3</sup> "Durphynox 17" is a trademark of Imphy, S.A.

<sup>4</sup> This list of uses is illustrative and provided for descriptive purposes only.

**DATES:** The meeting will convene on February 5, 2008, at 8:30 a.m. and will adjourn on February 6, 2008, at 12 p.m.

**ADDRESSES:** The meeting will be held in the Employees Lounge, Administration Building, at NIST, Gaithersburg, Maryland. All visitors to the NIST site will have to pre-register to be admitted. Please submit your name, time of arrival, e-mail address and phone number to Denise Herbert no later than Friday, February 1, 2008, and she will provide you with instructions for admittance. Ms. Herbert's e-mail address is [denise.herbert@nist.gov](mailto:denise.herbert@nist.gov) and her phone number is (301) 975-5607.

**FOR FURTHER INFORMATION CONTACT:** Denise Herbert, Visiting Committee on Advanced Technology, National Institute of Standards and Technology, Gaithersburg, Maryland 20899-1000, telephone number (301) 975-5607.

Dated: January 9, 2008.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

RIN 0648-XE97

#### Endangered and Threatened Species; Take of Anadromous Fish

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Issuance of a scientific research permit.

**SUMMARY:** Notice is hereby given that NMFS has issued Permit 10017 to California Department of Parks and Recreation (CDPR) in Half Moon Bay, California.

**ADDRESSES:** The application, permit, and related documents are available for review by appointment at: Protected Resources Division, NMFS, 777 Sonoma Avenue, Room 315, Santa Rosa, CA 95404 (ph: 707-575-6097, fax: 707-578-3435, e-mail at: [Jeffrey.Jahn@noaa.gov](mailto:Jeffrey.Jahn@noaa.gov))

**FOR FURTHER INFORMATION CONTACT:**

Jeffrey Jahn at 707-575-6097, or e-mail: [Jeffrey.Jahn@noaa.gov](mailto:Jeffrey.Jahn@noaa.gov).

**SUPPLEMENTARY INFORMATION:**

#### Authority

The issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16

U.S.C. 1531-1543) (ESA), is based on a finding that such permits/modifications: (1) are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations (50 CFR parts 222-226) governing listed fish and wildlife permits.

#### Species Covered in This Notice

This notice is relevant to federally endangered Central California Coast coho salmon (*Oncorhynchus kisutch*) and threatened Central California Coast steelhead (*O. mykiss*).

#### Permit Issued

A notice of the receipt of an application for a scientific research permit (10017) was published in the **Federal Register** on July 23, 2007 (72 FR 40119). Permit 10017 was issued to CDPR on November 27, 2007.

Permit 10017 authorizes: (1) unintentional non-lethal capture (by beach seine and dipnet), and release of adult Central California Coast coho salmon and adult Central California Coast steelhead; (2) capture (by backpack electrofishing, beach seine, dip-net, and fyke-net trap), handling, and release of juvenile Central California Coast coho salmon; (3) capture (by backpack electrofishing, beach seine, dip-net, and fyke-net trap), handling, marking (using fin-clips, PIT tags, or VIE tags), and release of juvenile Central California Coast steelhead; (4) capture (by beach seine or dip-net), lethal sacrifice, and collection of sick or injured juvenile Central California Coast steelhead; and (5) capture (by beach seine or dip-net) and collection of previously dead juvenile Central California Coast steelhead.

Permit 10017 authorizes unintentional lethal take of: juvenile Central California Coast steelhead not to exceed 2 percent of juvenile Central California Coast steelhead captured. Permit 10017 does not authorize any lethal take of adult Central California Coast coho salmon and adult Central California Coast steelhead. Permit 10017 authorizes intentional lethal take of five juvenile Central California Coast steelhead that appear to be sick or injured (appear lethargic, are unresponsive to disturbance, or swim rapidly in a circular or erratic manner) as a result of fish die-off events in

Pescadero Lagoon, San Mateo County, California.

Permit 10017 is for research to be conducted in the lagoons and streams of San Gregorio Creek, Pomponio Creek, and Pescadero Creek in San Mateo County, California. The purpose of the research is to provide ESA-listed salmonid population, distribution, and habitat assessment data which will: (1) contribute to the general body of scientific knowledge pertaining to ESA-listed salmonids; (2) assess the effects of chronic hypoxia and annual fish die-off events on the status of juvenile ESA-listed salmonid populations and habitat use in Pescadero Lagoon; (3) guide habitat restoration and management actions to prevent future fish die-off events in Pescadero Lagoon; and (4) evaluate the effects of wetland restoration and altered sandbar regimes on juvenile ESA-listed salmonid populations and lagoon habitat to guide future restoration and management activities. Permit 10017 expires on November 30, 2012.

Dated: January 10, 2008.
