

proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments protests and interventions via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web (<http://www.ferc.gov>) site under the "e-Filing" link.

Secretary.

SUPPLEMENTARY INFORMATION: The COLUMBIA AMERICAN PLATING Site is located at 3003 NW. 35th Avenue, Portland, Oregon (Site). LAKEA CORPORATION (dba as COLUMBIA AMERICAN PLATING) operated a metal plating business.

In May 2003, in response to a request from the State of Oregon's Department of Environmental Quality's Emergency Response and Removal Program, EPA assisted in evaluating and mitigating the imminent threat to human health and the environment posed by hazardous substances and chemicals stored or otherwise handled at the Site. EPA removed approximately 80,000 gallons and 78,260 pounds of hazardous and non-hazardous waste located in tanks, drums, containers, sumps, and secondary containment systems for proper off-site treatment and disposal. EPA also conducted soil, groundwater, and surface water sampling at the Site. The removal was completed in 2004.

This settlement requires LAKEA CORPORATION and LARRY ANSON to pay: \$15,000.00 to the EPA Hazardous Substance Superfund; the net sale proceeds from selling the site if the settling parties are able to redeem the property out of foreclosure from Multnomah County; and assignment of all rights to insurance claims proceeds to EPA. This is in settlement of the approximately \$1.8 million in past costs incurred by EPA at the Site.

Dated: December 20, 2007.

Director of Office of Water and Watersheds.
