CSISSFRRRA, an amendment to the Clean Air Act, imposes access

Guidance for Conducting Prospective Ground-Water Studies

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) is issuing for public comment guidance for conducting prospective ground-water (PGW) studies. This study, which is required by EPA on a case-by-case basis, is conducted in a controlled setting and provides EPA with data for evaluating the impact of legal pesticide use on ground water quality. The PGW guidance document describes how to conduct a PGW monitoring study, milestones for consulting with EPA, and how to report results to EPA. Data generated from these field studies have proven valuable to EPA scientists and risk managers as they are specifically designed to relate pesticide use indicated on the label to measurements of the pesticide and its degradates in ground water used as a source of drinking water.
