

negative comments, and, therefore, issues it as a direct final rule. Unless a written adverse or negative comment or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the effective date of the rule. If the FAA receives, within the comment period, an adverse or negative comment, or written comment notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Although this action is in the form of a direct final rule, and was not preceded by a notice of proposed rulemaking, interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. An electronic copy of this document may be downloaded from <http://www.regulations.gov>. Communications should identify both docket numbers and be submitted in triplicate to the address specified under the caption **ADDRESSES** above or through the Web site. All communications received on or before the closing date for comments will be considered, and this rule may be amended or withdrawn in light of the comments received.

The Rule

This amendment to Title 14, Federal Regulations (14 CFR) part 71 establishes Class E5 airspace at Eagle Pass, TX providing the airspace required to support the new RNAV (GPS) RWY 13/31 approach developed for IFR landings at Maverick County Memorial International Airport. Controlled airspace extending upward from 700 feet above the surface is required to encompass all SIAPs and for the safety of IFR operations at Maverick County Memorial International Airport. Designations for Class E5 airspace areas extending upward from 700 feet above the surface of the earth are published in the FAA Order 7400.9R, signed August 15, 2007 and effective September 15, 2007, which is incorporated by reference in 14 CFR 71.1. Class E5 designations listed in this document will be published subsequently in the Order.

Agency Findings

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among various levels of government. Therefore, it is determined that this final rule does not have federalism implication under Executive Order 13132.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49, of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in subtitle VII, Part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E5 airspace near Eagle Pass, TX.

Adoption of the Amendment

■ In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9R, Airspace Designation and Reporting Points, signed August 15, 2007, and effective September 15, 2007, is amended as follows:

Paragraph 6002 Class E5 airspace areas extending upward from 700 feet above the surface of the earth

18 CFR Part 11

[RM08–6–000]

Update of the Federal Energy Regulatory Commission's Fees Schedule for Annual Charges for the Use of Government Lands

January 15, 2008.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Final rule; update of Federal land use fees.

SUMMARY: In accordance with the Commission's regulations, the

Commission by its designee, the Executive Director, is updating its schedule of fees for the use of government lands. The yearly update is based on the most recent schedule of fees for the use of linear rights-of-way prepared by the United States Forest Service. Since the next fiscal year will cover the period from October 1, 2007 through September 30, 2008 the fees in this notice will become effective October 1, 2007. The fees will apply to fiscal year 2008 annual charges for the use of government lands.

The Commission has concluded, with the concurrence of the Administrator of the Office of Information and Regulatory Affairs of OMB that this rule is not a "major rule" as defined in section 251 of the Small Business Regulatory Enforcement Fairness Act of 1996, 5 U.S.C. 804(2).

DATES: Effective January 22, 2008. These fees apply for the fiscal year period from October 1, 2007 through September 30, 2008.

[Docket No. 0612243018-8043-01]

RIN 0625-AA73

Antidumping and Countervailing Duty Proceedings: Documents Submission Procedures; APO Procedures

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Final rule.

SUMMARY: The Department of Commerce (“the Department”) is amending its regulations in antidumping (“AD”) and countervailing duty (“CVD”) proceedings governing information submitted to the Department and administrative protective orders in order to improve the Department’s procedures and provide clarification to some aspects of the Department’s regulations. Specifically, the Department is amending its regulations as follows: To reflect a transfer in the function of receiving submissions filed in AD/CVD proceedings from the Central Records Unit to the Administrative Protective

Order (“APO”) Unit, and to change the name of the APO Unit to APO/Dockets Unit; to reflect the fact that the Central Records Unit has moved to Room 1117 of the Herbert C. Hoover Building; to reflect a transfer in the function of maintaining public service lists from the Central Records Unit to the APO/Dockets Unit; to update the definition of “Customs Service” to reflect the reorganization of the Executive Branch; to clarify that documents filed with the Department will only be time stamped when appropriate, for example, when an interested party submits a request for treatment as a voluntary respondent; to clarify when an APO will be placed on the record with respect to new shipper reviews, applications for scope rulings and changed circumstances reviews; to clarify when a party must serve business proprietary information already on the administrative record to new authorized applicants to the APO; to require parties to file a formal letter of appearance to request placement on the public service list of any segment of an AD/CVD proceeding, either as a cover letter to the APO application or as a separate document; and to clarify when a party is to be considered an “interested party” for the purposes of the APO. Finally, the Department is amending its short form application for access under an APO (Form ITA-367).

DATES: *Effective Date:* The effective date of this final rule is February 21, 2008.

The amended regulations will apply to all investigations initiated on the basis of petitions filed on or after February 21, 2008, and other segments of proceedings requested or initiated after this date. The amended APO application form will be effective for all ongoing segments pending before the Department as of the effective date or initiated on or after the effective date, except those segments initiated before June 3, 1998.

SUPPLEMENTARY INFORMATION:

Background

Pursuant to section 777(c)(1)(A) of the Tariff Act of 1930, as amended (“the Act”) (19 U.S.C. 1677f(c)(1)(A)), the Department must make available to interested parties, under an APO, business proprietary information submitted to it during the course of an antidumping or countervailing duty proceeding. Section 777(c)(1)(B) of the Act authorizes the Department to issue regulations governing the APO process. The Department’s current regulations are codified at 19 CFR part 351.

On January 8, 2007, the Department published proposed amendments to the rules governing procedures for providing access to business proprietary information submitted to the
