Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of this program is to improve student reading skills and academic achievement by providing students with

increased access to up-to-date school library materials; well-equipped, technologically advanced school library media centers; and well-trained, professionally certified school library media specialists.

Priorities: This notice contains one competitive preference priority and one invitational priority.

Competitive Preference Priority: This priority is from the notice of final priority for this program, published in the **Federal Register** on February 16, 2007 (72 FR 7629). For FY 2008, and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is a competitive preference priority. Under 34 CFR 75.105(c)(2)(i) we award up to an additional 5 points to an application, depending on how well the application meets this priority.

Under this priority, we give priority to projects that demonstrate in their grant applications that the proposed library literacy project services are comprehensive and aligned with a school or district improvement plan. A school improvement plan may include the required two-year plan (under section 1116(b)(3) of the Elementary and Secondary Education Act of 1965, as amended by the No Child Left Behind Act of 2001) that addresses the academic issues that caused a school to be identified as in need of improvement. The plan could also include a voluntary plan developed by the school or district to improve academic achievement. The applicant must clearly describe the improvement plan that is in place, whether it is for the school or the entire district, the reasons why the plan was put in place, and how the proposed project and the operation of the school library media center will directly support the academic goals established in the improvement plan.

Invitational Priority: This priority is from the notice of final priorities for discretionary grant programs published in the **Federal Register** on October 11, 2006 (71 FR 60046). For FY 2008 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an invitational priority. Under 34 CFR 75.105(c)(1) we do not give an application that meets this invitational priority a competitive or absolute preference over other applications.

This priority is for projects that help school districts implement academic and structural interventions in schools that have been identified for improvement, corrective action, or restructuring under the Elementary and Secondary Education Act of 1965, as
