SUPPLEMENTARY INFORMATION:**I. Extension of Comment Period**

On November 28, 2007, at 72 FR 67351, OSHA published a Notice of Proposed Rulemaking (NPRM) titled "Confined Spaces in Construction." In this NPRM, OSHA announced a proposed rule for confined spaces in construction; provided an explanation of the rule and its economic analysis; and solicited comments from the public regarding various confined-spaces issues. The period for submitting written comments was to expire on January 28, 2008. However, the following associations have requested a 60-day extension for submitting their written comments and information: The National Association of Home Builders (NAHB), the National Utility Contractors Association (NUCA), and the Associated Builders and Contractors Association (ABC). The NAHB cites as reasons for its request the complexity of the rule and its need for additional time to enable them to consult with their members. The ABC cites these reasons and notes that the comment period coincided with the holiday season, which made it more difficult for ABC to survey its members on the NPRM.

OSHA believes that a 30-day extension will be sufficient to accommodate these considerations, facilitate the submission of more thorough reviews, and provide OSHA with a complete record for this

proposed rule. Accordingly, the comment period has been extended by 30 days and written comments must now be submitted (sent or postmarked) by February 28, 2008.

II. Submission of Comments and Access to Comments

You may submit comments in response to this document (1) electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (FAX); or (3) by hard copy. All comments, attachments and other material must identify the Agency name and the OSHA docket number for this rulemaking (Docket No. OSHA-2007-0026). You may supplement electronic submissions by uploading document files electronically. If, instead, you wish to mail additional materials in reference to an electronic or fax submission, you must submit three copies to the OSHA Docket Office (see **ADDRESSES** section). The additional materials must clearly identify your electronic comments by name, date, and docket number so OSHA can attach them to your comments.

Because of security-related procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger or courier service, please contact the OSHA Docket Office (see **ADDRESSES** section).

Comments and submissions in response to this **Federal Register** notice are posted without change at <http://www.regulations.gov> (Docket No. OSHA-2007-0026). Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth.

Although all submissions in response to this **Federal Register** notice and all supporting materials cited in the Confined Spaces in Construction proposal are listed in the <http://www.regulations.gov> and <http://dockets.osha.gov> indexes, some information (e.g., copyrighted material) is not publicly available to read or download from that Web page. All submissions and supporting materials, including copyrighted material, are available for inspection and copying at the OSHA Docket Office.

using the Internet to locate docket submissions.
