SUPPLEMENTARY INFORMATION: EPA has
submitted the following ICR to OMB for
review and approval according to the
procedures prescribed in 5 CFR 1320.12.
On September 7, 2007 (72 FR 51439),
EPA sought comments on this ICR
pursuant to 5 CFR 1320.8(d). EPA
received no comments on this ICR. Any
additional comments on this ICR should
be submitted to EPA and OMB within
30 days of this notice.

EPA has established a public docket
for this ICR under Docket ID No. EPA-
HQ-RCRA-2007-0418, which is
available for online viewing at
www.regulations.gov, or in person
viewing at the RCRA Docket in the EPA
Docket Center (EPA/DC), EPA West,
Room 3334, 1301 Constitution Ave.,
NW., Washington, DC. The EPA/DC
Public Reading Room is open from 8:30
a.m. to 4:30 p.m., Monday through
Friday, excluding legal holidays. The
telephone number for the Reading Room
is 202-566-1744, and the telephone
number for the RCRA Docket is 202-
566-0270.

Use EPA's electronic docket and
comment system at
www.regulations.gov, to submit or view
public comments, access the index
listing of the contents of the docket, and
to access those documents in the docket
that are available electronically. Once in
the system, select "docket search," then
key in the docket ID number identified
above. Please note that EPA's policy is
that public comments, whether
submitted electronically or in paper,
will be made available for public
viewing at www.regulations.gov as EPA
receives them and without change,
unless the comment contains
copyrighted material, Confidential
Business Information (CBI), or other
information whose public disclosure is
restricted by statute. For further
information about the electronic docket,
go to www.regulations.gov.

Title: Identification, Listing and
Rulemaking Petitions (Renewal).

ICR Number: EPA ICR Number
1189.20, OMB Control Number 2050-
0053.

ICR Status: This ICR is scheduled to
expire on January 31, 2008. Under OMB
regulations, the Agency may continue to

conduct or sponsor the collection of
information while this submission is
pending at OMB. An agency may not
conduct or sponsor, and a person is not
required to respond to, a collection of
information, unless it displays a
currently valid OMB control number.
The OMB control numbers for EPA's
regulations in title 40 of the CFR, after
appearing in the **Federal Register** when
approved, are listed in 40 CFR part 9,
are displayed either by publication in
the **Federal Register** or by other
appropriate means, such as on the
related collection instrument or form, if
applicable. The display of OMB control
numbers in certain EPA regulations is
consolidated in 40 CFR part 9.

Abstract: Under the authority of the
Resource Conservation and Recovery
Act of 1976 (RCRA), as amended,
Congress directed the U.S.
Environmental Protection Agency (EPA)
to implement a comprehensive program
for the safe management of hazardous
waste. In addition, Congress wrote that
"[a]ny person may petition the
Administrator for the promulgation,
amendment or repeal of any regulation"
under RCRA (section 7004(a)).

40 CFR Parts 260 and 261 contain
provisions that allow regulated entities
to apply for petitions, variances,
exclusions, and exemptions from
various RCRA requirements. In this ICR,
EPA presents a comprehensive
description of these paperwork
requirements and estimates the total
annual burden and cost to respondents
and the government.

Burden Statement: The annual public
reporting burden for this ICR is
estimated to average 27 hours per
response, and the annual recordkeeping
burden for this ICR is estimated to
average 2 hours per response.

Burden means the total time, effort, or
financial resources expended by persons
to generate, maintain, retain, or disclose
or provide information to or for a
Federal agency. This includes the time
needed to review instructions; develop,
acquire, install, and utilize technology
and systems for the purposes of
collecting, validating, and verifying
information, processing and
maintaining information, and disclosing
and providing information; adjust the
existing ways to comply with any
previously applicable instructions and
requirements which have subsequently
changed; train personnel to be able to
respond to a collection of information;
search data sources; complete and
review the collection of information;
and transmit or otherwise disclose the
information.

The ICR provides a detailed
explanation of the Agency's estimate,
which is only briefly summarized here:

Respondents/Affected Entities:
Business/industries subject to the
regulations under 40 CFR Parts 260 and
261.

Estimated Number of Respondents:
2,535.

Frequency of Response: On occasion.
Estimated Total Annual Hour Burden:
73,752 hours.

**Estimated Total Annualized Cost
Burden:** \$11,917,572 (includes
\$9,239,315 annualized O&M costs and
\$2,678,259 annualized labor costs).

Changes in the Estimates: There is a
decrease of 2,177 hours in the total
estimated burden currently identified in
the OMB Inventory of Approved ICR
Burdens. The burden decrease is an
adjustment to the existing estimates
based on data gathered through
consultations with EPA Regional and
State offices and the regulated
community, not due to program
changes.

Dated: January 17, 2008.

Title: Hazardous Waste Generator Standards (Renewal).

ICR numbers: EPA ICR No. 820.10, OMB Control No. 2050-0035.

ICR Status: This ICR is scheduled to expire on January 31, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Under the Resource Conservation and Recovery Act (RCRA), as amended, Congress directed the U.S. Environmental Protection Agency to implement a comprehensive program for the safe management of hazardous waste. The core of the national waste management program is the regulation of hazardous waste from generation to transport to treatment and eventual disposal, or from "cradle to grave."

This ICR addresses the following categories of informational requirements in part 262: pre-transport requirements for both large (LQG) and small (SQG) quantity generators; storage requirements in tanks, containment buildings and drip pads; air emission standards requirements for LQGs (referenced in 40 CFR Part 265, Subparts AA and BB); recordkeeping and reporting requirements for LQGs and SQGs; and export requirements for LQGs and SQGs (i.e., notification of intent to export and annual reporting).

This collection of information is necessary to help generators and EPA: (1) Identify and understand the waste streams being generated and the hazards associated with them; (2) determine whether employees have acquired the necessary expertise to perform their jobs; and (3) determine whether LQGs have developed adequate procedures to respond to unplanned sudden or non-sudden releases of hazardous waste or hazardous constituents to air, soil, or surface water. This information is also

needed to help EPA determine whether tank systems are operated in a manner that is fully protective of human health and the environment and to ensure that releases to the environment are managed quickly and efficiently.

Additionally, this information contributes to EPA's goal of preventing contamination of the environment from hazardous waste accumulation practices, including contamination from equipment leaks and process vents. Export information is needed to ensure that: (1) Foreign governments consent to U.S. exported wastes; (2) exported waste is actually managed at facilities listed in the original notifications; and (3) documents are available for compliance audits and enforcement actions. In general, these requirements contribute to EPA's goal of preventing contamination of the environment.

Burden Statement: The average public reporting under this collection of information is estimated to be 2.78 hours per respondent. The average public recordkeeping burden under this collection of information is estimated to be 0.05 hours. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Private Sector.

Estimated Number of Respondents: 101,500.

Frequency of Response: Occasionally and biennially.

Estimated Total Annual Hour Burden: 286,866.

Estimated Total Annual Cost: \$11,321,660. This includes \$22,770 in annualized capital costs, \$15,473 in O&M costs, and \$11,283,417 in Respondent Labor costs.

Changes in the Estimates: There is a decrease of 166,217 annual hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burden of 453,083 hours. This change primarily results from a decrease of 22,882 facilities, as well as

a change in assumptions associated with such categories as containment buildings, and contingency planning resulting in the reduction of additional burden hours.

Title: Fuel Quality Regulations for Diesel Fuel Sold in 2001 & Later Years; for Tax-Exempt (Dyed) Highway Diesel Fuel; & Nonroad Locomotive & Marine Diesel Fuel (Renewal).

ICR numbers: EPA ICR No. 1718.08, OMB Control No. 2060-0308.

ICR Status: This ICR is scheduled to expire on January 31, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of

information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR covers recordkeeping and reporting requirements for motor vehicle diesel fuel and non-road, locomotive, and marine diesel fuel. It also includes recordkeeping and reporting associated with the placement of codes on dyed diesel fuel (the dye is required under IRS regulations). The main purpose for recordkeeping and reporting is to ensure compliance with the regulations at 40 CFR Part 80, Subpart I—Motor Vehicle, Non-Road, Locomotive and Marine Diesel Fuel. Because the diesel fuel regulations are written to permit several types of flexibility, periodic reporting (annual and quarterly) is necessary in order for EPA to monitor compliance. Most reporting is mandatory. Parties may assert a claim of business confidentiality and submissions covered by such a claim will be treated in accordance with procedures at 40 CFR Part 2 and established Agency procedures.

With this ICR the Office of Air and Radiation (OAR) is also seeking permission to collect applications from refiners, importers, and independent laboratories in order to permit them to use performance-based test methods for measuring sulfur in diesel fuel and detecting the presence of a marker in diesel sold as heating oil. This was previously covered by EPA ICR Number 2180.02 (2060-0566), but since the entire burden in that ICR is related to motor vehicle and non-road diesel fuel, we are including it in this ICR and will terminate 2180.02 upon approval.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.62 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the
