If you submit comments after this date, those comments will be provided to the Board members, but you should recognize that the Board members may not have adequate time to consider those comments prior to making a decision. Thus, if you plan to submit written comments, the Agency strongly encourages you to submit such comments no later than noon, Eastern Time, February 4, 2008. You should submit your comments using the instructions described earlier in this notice. In addition, the Agency also requests that person(s) submitting comments directly to the docket also provide a copy of their comments to the person listed under **FOR FURTHER INFORMATION CONTACT**. There is no limit on the length of written comments for consideration by the HSRB.

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

National Science and Technology Council; Research Business Models Subcommittee of the Committee on Science

ACTION: Final Notice of Standard Terms and Conditions for Research Grants.

SUMMARY: Effective with publication of this Notice in the **Federal Register**, research agencies will be able to utilize a new standard core set of administrative terms and conditions on research and research-related awards that are subject to OMB Circular A–110, “Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations” (2 CFR part 215).

This resulted from an initiative of the Research Business Models (RBM) Subcommittee of the Committee on Science (CoS), a committee of the National Science and Technology Council (NSTC). One of the RBM Subcommittee’s priority areas is to create greater consistency in the administration of Federal research awards. Given the increasing complexity of interdisciplinary and interagency research, it has become increasingly important for Federal agencies to manage awards in a similar fashion.

In 2000, the Federal Demonstration Partnership (FDP), a cooperative initiative among 10 Federal agencies and 98 institutional recipients of research funds, developed Standard Terms and Conditions as a model implementation of OMB Circular A–110. It was demonstrated that these terms were an effective set of requirements for many agency research awards. In 2005, following public and agency comment on the original FDP terms, final standard terms and conditions were developed by RBM.

With this final notice, research agencies and awarding offices that participate in the FDP, must use the core set of administrative requirements, to the maximum practicable extent, in research and research-related grant awards to organizations that are subject to 2 CFR part 215. Likewise, agencies that have not participated in the FDP

may elect to use these terms on selective awards to their research recipients.

The Government-wide core set of administrative requirements are posted on the NSF Web site at: <http://www.nsf.gov/bfa/dias/policy/rtc/index.jsp>. As changes are made in the future, NSF will maintain both the current version and an archive of earlier versions. Research agencies will post their plans for implementing the administrative requirements either on the RBM subcommittee Web site, <http://rbm.nih.gov>, or on their own Web site, in which case the RBM subcommittee will provide a link from its site to the agency’s location.

FOR FURTHER INFORMATION CONTACT: For information on the Research Terms and Conditions, contact Jean Feldman, Head, Policy Office, Division of Institution & Support, National Science Foundation, 4201 Wilson Blvd, Arlington, VA 22230, e-mail: jfeldman@nsf.gov; telephone (703) 292–8243; FAX: (703) 292–9171. For further information on the NSTC RBM Subcommittee, contact Diane DiEuliis, at the Office of Science and Technology Policy, 725 17th Street, NW., Washington, DC 20503; e-mail: ddieuliis@ostp.eop.gov; telephone 202–456–6059; FAX 202–456–6027. See also the RBM Subcommittee’s Web site: <http://rbm.nih.gov>.

SUPPLEMENTARY INFORMATION:

I. Background and Purpose of Today’s Federal Register Notice

This proposal is an initiative of the Research Business Models (RBM) Subcommittee of the Committee on Science (CoS), a committee of the National Science and Technology Council (NSTC). One of RBM Subcommittee’s priority areas is greater consistency in the administration of Federal research awards. Given the increasing complexity of interdisciplinary and interagency research, it has become increasingly important for Federal agencies to manage awards in a similar fashion.

Federal agencies’ awarding offices currently include different award requirements, use different language to state the same requirements, and organize the award content differently. The variation in format and content of these terms and conditions of awards increases both administrative effort and costs for recipients. Because requirements arise from common government-wide statutes and regulations, as well as OMB circulars, their standardization is possible.

In 2000, the ten Federal agencies and awarding offices and 98 research
