NUCLEAR REGULATORY COMMISSION

[Docket Nos. 52-014 and 52-015]

Tennessee Valley Authority; Acceptance for Docketing of an Application for Combined License for Bellefonte Units 3 and 4

By letter dated October 30, 2007, as supplemented by letters dated November 2, 2007, January 8, 2008, and January 14, 2008, the Tennessee Valley Authority (TVA), submitted an application to the U.S. Nuclear Regulatory Commission (NRC) for a combined license (COL) for two AP1000 advanced passive pressurized water reactors in accordance with the requirements contained in 10 CFR 52, "Licenses, Certifications and Approvals for Nuclear Power Plants." These reactors will be identified as Bellefonte Units 3 and 4 and located near the town of Scottsboro in Jackson County, Alabama. A notice of receipt and

availability of this application was previously published in the **Federal Register** (72 FR 66200) on November 27, 2007.

The NRC staff has determined that TVA has submitted information in accordance with 10 CFR part 2, "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," and 10 CFR part 52 that is acceptable for docketing. The docket numbers established for Units 3 and 4 are 52-014, and 52-015, respectively.

The NRC staff will perform a detailed technical review of the application. Docketing of the application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny the application. The Commission will conduct a hearing in accordance with Subpart L, "Informal Hearing Procedures for NRC Adjudications," of 10 CFR part 2 and will receive a report on the COL application from the Advisory Committee on Reactor Safeguards in accordance with 10 CFR 52.87, "Referral to the Advisory Committee on Reactor Safeguards (ACRS)." If the Commission finds that the COL application meets the applicable standards of the Atomic Energy Act and the Commission's regulations, and that required notifications to other agencies and bodies have been made, the Commission will issue a COL, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

In accordance with 10 CFR part 51, the Commission will also prepare an environmental impact statement for the proposed action. Pursuant to 10 CFR 51.26, and as part of the environmental scoping process, the staff intends to hold a public scoping meeting. Detailed information regarding this meeting will be included in a future **Federal Register** notice.

Finally, the Commission will announce in a future **Federal Register** notice the opportunity to petition for leave to intervene in the hearing required for this application by 10 CFR 52.85.
