Approval and Promulgation of Air Quality Implementation Plans; Michigan; Oxides of Nitrogen Regulations, Phase II

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is approving Michigan's oxides of nitrogen (NO_x) rules which satisfy the requirements of EPA's NO_x SIP Call Phase II Rule (the Phase II Rule). We are approving these regulations based on Michigan's demonstration that they will result in the achievement of the Phase II budget through source compliance with rules affecting stationary internal combustion (IC) engines which are identified in the NO_x plan submittal. Limiting NO_x emissions from IC engines will enable the State to meet the Phase II incremental difference of 1,033 tons during the ozone season, thereby improving air quality and protecting the health of Michigan citizens.

SUPPLEMENTARY INFORMATION: In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If we do not receive any adverse comments in response to this rule, we do not contemplate taking any further action. If EPA receives adverse comments, we will withdraw the direct final rule, and will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. Approval and Promulgation of Air Quality Implementation Plans; Maine; Ozone Maintenance Plans

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to approve a State Implementation Plan (SIP) revision submitted by the State of Maine, that includes four separate 8-hour ozone maintenance plans. The Clean Air Act requires that areas that are designated attainment for the 8-hour ozone standard, and also had been previously designated either nonattainment or maintenance for the 1-hour ozone standard, develop a plan showing how the state will maintain the ozone standard for the area. Maine's maintenance plans include an emissions inventory, a plan for how the state will demonstrate and track progress of continued maintenance of the standard, a commitment to continue ozone monitoring, and a contingency plan that will ensure that any violation of the 8-hour ozone standard is promptly addressed. The intended effect of this action is to propose approval of these four maintenance plans. This action is being taken under the Clean Air Act.
