

review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

These administrative and new shipper reviews and notice are in accordance with sections 751(a)(1), 751(a)(2)(B), and 777(i) of the Act and 19 CFR 351.213 and 351.214.

Dated: January 30, 2008.

**David M. Spooner,**

*Assistant Secretary for Import Administration.*

## DEPARTMENT OF COMMERCE

### National Institute of Standards and Technology

#### International Code Council: The Update Process for the International Codes

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice of Code Development Hearings on U.S. Model Building Safety and Fire Prevention Codes, 2009 editions.

**SUMMARY:** The International Code Council (ICC), under whose auspices the International Codes ("I-Codes") are developed, maintains a process for updating these model codes based on receipt of proposals from interested individuals and organizations. Each of the I-Codes are comprehensively updated and re-published every three years with a supplement released between each edition. The most current versions of the I-Codes are the 2006 editions and the 2007 supplements to the 2006 editions. The 2009 editions of the I-Codes, the subject of this notice, will be released in the first quarter of 2009.

The purpose of this notice is to invite public participation in the Code Development Hearings. At this session, all proposed changes submitted for the family of the 2009 I-Codes will be considered by the respective Code Development Committees, with the assembled body of the International Code Council members also afforded the opportunity to vote via an assembly action. Proposals for consideration at these hearings were received by the August 20, 2007, deadline and were made publically available as an electronic document on November 7, 2007, and as a printed Monograph on December 18, 2007.

The publication of this notice by the National Institute of Standards and Technology (NIST) on behalf of ICC is being undertaken as a public service. NIST does not necessarily endorse, approve, or recommend any of the codes or standards referenced in the notice.

**Session Dates:** The Code Development Hearings of the 2007/2008 Code Development Cycle will occur between February 18 and March 1, 2008, at the Palm Springs Convention Center in Palm Springs, California.

The agenda for the hearing as well as updates to the schedule are also posted on the ICC Web site at: <http://www.iccsafe.org>.

#### FOR FURTHER INFORMATION CONTACT:

Mike Pfeiffer, PE, Deputy Senior Vice President, Codes and Standards Development at ICC's Chicago District Office, 4051 West Flossmoor Road, Country Club Hills, Illinois 60478; Telephone 888-422-7233, Extension 4338; e-mail [mpfeiffer@iccsafe.org](mailto:mpfeiffer@iccsafe.org).

#### SUPPLEMENTARY INFORMATION:

##### Background

The ICC produces a family of codes and standards that are comprehensive, coordinated, and are widely used across the country in the regulation of the built environment. Local, state, and federal agencies use these codes and standards as the basis for developing regulations concerning new and existing construction. ICC's model codes and standards are each developed and maintained through voluntary consensus development processes known as the Governmental Consensus Process. Consistent with the voluntary consensus requirements of the National Technology Transfer and Advancement Act of 1995 (Pub. L. 104-113), the Governmental Consensus process incorporates a balance of involved interests, ensures due process, provides for conclusion by consensus, the resolution of objections by interested parties, the fair consideration of all public comments, and has a prescribed process for appeal of any action.

The ICC code development process is initiated when proposals from interested persons—supported by written data, views, or arguments—are solicited, received and then published in the Proposed Changes document. This document is distributed a minimum of 30 days in advance of the Code Development Hearings and serves as the agenda for that session.

At the Code Development Hearing the ICC Code Development Committee for each code or subject area of the code considers testimony and takes action on each proposal (Approval, Disapproval,

or Approval as Modified). At the conclusion of committee action on each proposal, any member of the public assembly may make a motion for a vote by the ICC members in attendance ("assembly action") to consider an action different than the committee action. Successful assembly actions on code changes become part of the record of public comments and are considered at the Final Action Hearing. Following the Code Development Hearing, the Report of the Public Hearing is published and identifies the disposition of each proposal, the reason for the committee's action, and successful assembly actions. Any person may provide additional comment on the committee actions in the public comment period following the first hearing. These comments are published and distributed in Final Action Agenda which serves as the agenda for the second public hearing in each cycle.

Proposals which are approved by a vote of the Governmental Members of ICC at the Final Action Hearing are incorporated in either the Supplement or Edition, as applicable, with the next 18-month cycle starting with the submittal deadline for proposals. Proponents of proposals will receive a copy of all documents (Proposed Changes, Report of the Public Hearing and Final Action Agenda). Any interested party may also request a copy, free of charge, by downloading the "return coupon" from the ICC Web site at <http://www.iccsafe.org> and forwarding it as directed.

*The 2009 International Codes consist of the following:* International Building Code; International Energy Conservation Code; International Existing Building Code; International Fire Code; International Fuel Gas Code; International Mechanical Code; ICC Performance Code for Buildings and Facilities; International Plumbing Code; International Private Sewage Disposal Code; International Property Maintenance Code; International Residential Code; International Urban-Wildland Interface Code; and International Zoning Code.

Dated: January 31, 2008.

**Richard F. Kayser,**

*Acting Deputy Director.*
