

Carolina. The project occupies nine counties in North Carolina and five counties in South Carolina.

The project licensee, Duke Energy Corporation (Duke Power), plans to add an earthfill berm to the downstream side of the embankment of Catawba Dam because it has been determined that the dam could fail during a seismic event. Accordingly, the Commission required remediation under Part 12 of its regulations. In the environmental assessment (EA), Commission staff has analyzed the probable environmental effects of the proposed work and has concluded that approval, with appropriate environmental measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is available for review at the Commission's Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
