SUPPLEMENTARY INFORMATION: *Purpose of the Meeting:* During the coming year, the Office of Science (SC) will be developing a new strategic plan for the Fusion Energy Sciences (FES) program. The Fusion Energy Sciences Advisory Committee (FESAC) recently completed addressing a charge on the magnetic fusion portion of the FES program. At this meeting, FESAC will be charged to address the remaining portions of the FES program—alternate concepts, high energy density laboratory plasmas and inertial fusion energy, and plasma sciences. In addition, the committee will discuss how it plans to approach each of the new charges and schedules to complete them. Once the recommendations and advice from FESAC on all of these portions of the program are complete, the Office of Science will be prepared to write the new strategic plan that will carry the FES program through the next important period in establishing the knowledge base for an economically and environmentally attractive fusion energy source.
