Financial Responsibility for Water Pollution (Vessels) and OPA 90 Limits of Liability (Vessels and Deepwater Ports); Correction
AGENCY: Coast Guard, DHS.

ACTION: Proposed rule; correction.

SUMMARY: The Coast Guard published in the **Federal Register** of February 5, 2008, a notice of proposed rulemaking which, among other things, would amend the regulatory requirements for vessel operators to establish and maintain evidence of financial responsibility. This document corrects the preamble and regulatory text to the proposed rule to clarify the effective date and the distinction between the financial responsibility applicable amounts and limits of liability.

SUPPLEMENTARY INFORMATION: The Coast Guard published an NPRM in the **Federal Register** of February 5, 2008, (73 FR 6642) which, among other things, proposed amending the regulatory requirements for vessel operators to establish and maintain evidence of financial responsibility. That document contained an incorrect effective date and was also unclear. This document corrects the preamble and regulatory text to the proposed rule to clarify the effective date and the distinction between the financial responsibility applicable amounts of § 138.80(f) and limits of liability in proposed Subpart B.

In FR Doc. E8-1516, appearing on page 6642 in the **Federal Register** of Tuesday, February 5, 2008, the following corrections are made:

Preamble [Corrected]

1. On page 6645, in the third column, after the reference to *Section 138.85*, remove the paragraph that states: "This new section of the proposed rule would establish an implementation schedule that would apply to the increased applicable amounts in Subpart B of this proposed rule, and whenever the financial responsibility applicable amounts under Subpart B are amended by regulation. This would occur in instances including, but not limited to, future regulatory changes mandated by statute, and when the limits of liability in proposed subpart B of this Part are amended to reflect significant increases in the Consumer Price Index pursuant to 33 U.S.C. 2704(d)(4)." and add, in its place, the following paragraph: "This new section of the proposed rule would establish an implementation schedule that would apply to the increased applicable amounts referenced in 138.80(f) of this proposed rule, and whenever the financial responsibility applicable amounts under § 138.80(f) are amended by regulation. This would occur in instances including, but not

limited to, future regulatory changes mandated by statute, and when the limits of liability in proposed subpart B of this Part are amended to reflect significant increases in the Consumer Price Index pursuant to 33 U.S.C. 2704(d)(4)."

§ 138.85 [Corrected]

2. On page 6654 in the first column, revise the proposed regulatory text for proposed § 138.85 to read as follows:

§ 138.85 Implementation Schedule

The effective date of the applicable amounts referenced in § 138.80(f) of this part will be [INSERT DATE 120 DAYS AFTER PUBLICATION OF FINAL RULE IN THE **Federal Register**]. In the event an applicable amount referenced in § 138.80(f) is thereafter amended by regulation, the effective date of the amended applicable amount will be 120 days after publication of a final rule in the **Federal Register**, unless another date is required by statute and specified in the amending regulation. Each operator of a vessel described in § 138.15, must have established, on or before the effective date of the applicable amount including any amendments thereto, evidence of financial responsibility acceptable to the Director, NPFCA, in an amount equal to or greater than the total applicable amount."

Dated: February 7, 2008.

William Grawe,

Acting Director, National Pollution Funds Center, United States Coast Guard.
