award, are responsible for collecting data from their clients at intake, discharge, and follow-up (at six months post intake).

The primary purpose of this data collection activity is to meet the reporting requirements of the

Government Performance and Results Act (GPRA) by allowing SAMHSA to quantify the effects and accomplishments of SAMHSA programs. The following table is an estimated annual response burden for this effort.

ESTIMATES OF ANNUALIZED HOUR BURDEN ¹

¹ This table represents the maximum additional burden if adult respondents provide three sets of responses/data.

² Added burden proportion is an adjustment reflecting customary and usual business practices programs engage in (e.g., they already collect the data items).

³ Data Extract: Grant burden for capturing customary and usual data.

⁴ Upload: All ATR grants upload data.
