SUPPLEMENTARY INFORMATION: The Tribe has requested that the BIA take into Federal trust 305 acres of land currently held in fee by the Tribe, on which the Tribe proposes to construct a hotel, casino, parking areas and other facilities. The proposed project is located in unincorporated Madera County, California, just north of the City of Madera and adjacent to State Route 99 (SR-99). The project site is bounded on the north by Avenue 18, rural residential land, light industrial land, and vacant land; on the east by Golden State Boulevard and SR-99; on the south by agricultural land and residential land; and on the west by Road 23 and agricultural land.

The proposed action includes the development of an approximately 472,000 square foot hotel and casino

resort and associated facilities, which would include a main gaming hall, food and beverage services, retail space, banquet/meeting space, and administration space. Food and beverage facilities would include three full service restaurants, a five-tenant food court, a buffet, four bars and a lounge. The hotel would include 200 rooms, a resort style pool area and a spa. Approximately 4,500 parking spaces would be provided. Regional access to the project site is via SR-99, Road 23, Avenue 18, and Golden State Boulevard would provide direct access to the hotel/casino resort.

A range of project alternatives is considered in the DEIS, including: (1) Preferred hotel/casino; (2) reduced casino; (3) commercial development; (4) North Fork Rancheria alternate site; and (5) no action. Environmental issues addressed in the DEIS include land resources, water resources, air quality, biological resources, cultural resources, socioeconomic conditions, environmental justice, transportation, land use, agriculture, public services, noise, hazardous materials, visual resources, cumulative effects, indirect effects, growth inducing effects and mitigation measures. Input from the public, including that from a public scoping meeting the BIA held on November 15, 2004, in Madera, California, was included in the development of these alternatives and issues.
