OMB Control Number: 2130-New.

Frequency: One-time.

Affected Public: 50 States and District of Columbia/Their Partners.

Form(s): SF-424.

Other Instruments: Collection of Information Associated with the NOFA Published in Today's **Federal Register**.

Estimated Total Annual Number of Responses: 7.0 Grant Applications (Paper/Electronic).

Estimated Total Annual Burden Hours: 6,309 Hours.

Abstract: On December 16, 2007, President Bush signed Public Law 110-

161, The Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2008. As part of this Act, Congress provided \$30 million to FRA to award in one or more grants for eligible projects related to capital improvements (fixed facilities and rolling stock) necessary to support improved or new intercity passenger services, and planning activities that lead to the development of a passenger rail corridor investment plan. Funds provided under this grant program may constitute no more than 50 percent of the total cost of a selected project, with the remaining cost funded from other sources. The funding provided under these grants will be made available to grantees on a reimbursement basis. FRA anticipates awarding grants to multiple eligible participants. FRA may choose to award a grant or grants within the available funds in any amount. Funding made available through grants provided under this program, together with funding from other sources that is committed by a grantee as part of a grant agreement, must be sufficient to complete the funded project and achieve the anticipated improvement to intercity passenger rail service. FRA will begin accepting grant applications on Monday, March 18, 2008. Applications may be submitted until the earlier of Wednesday, September 30, 2009, or the date on which all available funds will have been committed under this program.

Authority: 44 U.S.C. 3501-3520.

Issued in Washington, DC on February 12, 2008.

D.J. Stadler,

Director, Office of Financial Management, Federal Railroad Administration.

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System or Relief From the Requirements of Title 49 Code of Federal Regulations Part 236**

Pursuant to Title 49 Code of Federal Regulations (CFR) Part 235 and 49 U.S.C. 20502(a), the following railroad has petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of the signal system or relief from the requirements of 49 CFR Part 236, as detailed below.

[Docket Number FRA-2007-0026]

Applicant: CSX Transportation, Incorporated, Mr. C. M. King, Chief Engineer, Communications and Signals, 500 Water Street, SC J-350, Jacksonville, Florida 32202.

The CSX Transportation, Incorporated seeks approval of the proposed discontinuance and removal of three power operated split point derails, Number (No.) 2, No. 4, and No. 6, located within a traffic control system in St. Joseph, Michigan, milepost CG-87; Grand Rapids Subdivision; Chicago Division. The derails are manually controlled by the St. Joseph Drawbridge tender under the authority of the train dispatcher located in Jacksonville, Florida.

The reason given for the proposed changes is that the derails are no longer needed in present day operation.

Any interested party desiring to protest the granting of an application shall set forth specifically the grounds upon which the protest is made, and include a concise statement of the interest of the party in the proceeding. Additionally, one copy of the protest shall be furnished to the applicant at the address listed above.

FRA expects to be able to determine these matters without an oral hearing. However, if a specific request for an oral hearing is accompanied by a showing that the party is unable to adequately present his or her position by written statements, an application may be set for public hearing.

All communications concerning this proceeding should be identified by Docket Number FRA-2007-0026 and may be submitted by one of the following methods:
