Abstract: On December 16, 2007, President Bush signed Public Law 110-

161, The Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2008. As part of this Act, Congress provided \$30 million to FRA to award in one or more grants for eligible projects related to capital improvements (fixed facilities and rolling stock) necessary to support improved or new intercity passenger services, and planning activities that lead to the development of a passenger rail corridor investment plan. Funds provided under this grant program may constitute no more than 50 percent of the total cost of a selected project, with the remaining cost funded from other sources. The funding provided under these grants will be made available to grantees on a reimbursement basis. FRA anticipates awarding grants to multiple eligible participants. FRA may choose to award a grant or grants within the available funds in any amount. Funding made available through grants provided under this program, together with funding from other sources that is committed by a grantee as part of a grant agreement, must be sufficient to complete the funded project and achieve the anticipated improvement to intercity passenger rail service. FRA will begin accepting grant applications on Monday, March 18, 2008. Applications may be submitted until the earlier of Wednesday, September 30, 2009, or the date on which all available funds will have been committed under this program.

Phone: (202) 493–6152; Fax: (202) 493–6171.

SUPPLEMENTARY INFORMATION: The Capital Assistance to States—Intercity Passenger Rail Service Program (Catalog of Federal Domestic Assistance (CFDA) Program Number 20.317) will be supported with \$30,000,000 of Federal funds provided to FRA as part of the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2008 (Division K of Pub. L. 110–161 (December 26, 2007)). Funds provided under this program may constitute no more than 50 percent of the total cost of a selected project, with the remaining cost funded from other sources. FRA anticipates awarding grants to multiple eligible participants. Eligible projects include capital improvements (fixed facilities and rolling stock) necessary to support improved or new intercity passenger rail services, and planning activities that lead directly to the development of a passenger rail corridor investment plan. FRA anticipates that no further public notice will be made with respect to selecting grantees under this program.

Purpose: In 2002, then-Secretary of Transportation, Norman Y. Mineta, announced a number of principles to guide the future of intercity passenger rail in the United States. One of these principles was to “establish a long-term partnership between States and the Federal Government to support intercity

passenger rail.” In furtherance of that principle, the President’s Fiscal Year (FY) 2008 Budget proposed, and the Congress enacted, a program that would increase the States’ role in intercity passenger rail development by establishing Federal-State partnerships for intercity passenger rail investment along the model of those that currently exist for other modes of transportation. This program makes \$30,000,000 in Federal funding available directly to States through grants to fund up to 50 percent of the cost of capital investments and planning activities necessary to achieve tangible improvements to, or institute new, intercity passenger rail service. Examples of such improvements include (but are not strictly limited to) the purchase of passenger rolling stock, the improvement of existing track to allow for higher maximum speeds, the addition or lengthening of passing tracks to increase capacity, the improvement of interlockings to increase capacity and reliability, and the improvement of signaling systems to increase capacity and maximum speeds, and improve safety.

Authority: The authority for the Program can be found in the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2008 (Division K of Pub. L. 110–161 (December 26, 2007)).

Funding: The Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2008, provides \$30,000,000, and directs FRA to award one or more grants covering up to 50 percent of the cost of capital investments (and limited planning activities) necessary to support improved intercity passenger rail services. The funding provided under these grants will be made available to grantees on a reimbursement basis. It is anticipated that the available funding could support the projects proposed by multiple applicants. FRA may choose to award a grant or grants within the available funds in any amount. Funding made available through grants provided under this program, together with funding from other sources that is committed by a grantee as part of a grant agreement, must be sufficient to complete the funded project and achieve the anticipated improvement to intercity passenger rail service.

Schedule for Capital Grant Program: FRA will begin accepting grant applications on Monday, March 18, 2008. Applications must be submitted by Wednesday, September 30, 2009 or the date (to be announced) on which all available funds will have been committed. Due to the limited funding
