BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Availability of Final Comprehensive Conservation Plan for Medicine Lake National Wildlife Refuge Complex, Medicine Lake, MT

AGENCY: Fish and Wildlife Service, Interior

ACTION: Notice of availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service) announce that the final Comprehensive Conservation Plan (CCP) for the Medicine Lake National Wildlife Refuge (NWR) Complex is available. This CCP, prepared pursuant to the National Wildlife Refuge System Improvement Act of 1997 and the National Environmental Policy Act of 1969, describes how the Service intends to manage the Medicine Lake NWR

Complex consisting of Medicine Lake NWR, the Northeast Montana Wetland Management District (WMD), and Lamesteer NWR for the next 15 years.

ADDRESSES: A copy of the CCP or Summary may be obtained by writing to U.S. Fish and Wildlife Service, Division of Refuge Planning, 134 Union Boulevard, Suite 300, Lakewood, Colorado, 80228, or downloaded from <http://mountain-prairie.fws.gov/planning>.

FOR FURTHER INFORMATION CONTACT: Laurie Shannon, 303-236-4317 (phone); 303-236-4792 (fax); or laurie_shannon@fws.gov.

SUPPLEMENTARY INFORMATION: The Medicine Lake NWR Complex is located within the highly productive prairie pothole region of the Northern Great Plains, along the western edge of the Missouri Coteau, in Northeastern Montana. It is composed of three individual units: the Medicine Lake NWR, the Northeast Montana WMD, and the Lamesteer NWR. These refuges are managed as one complex, and together they are dispersed across four counties and require management of more than 73,532 acres of Service-owned lands and wetland and/or grassland easements or leases on privately-owned land. Medicine Lake NWR encompasses about 31,534 acres including 11,360 acres of designated wilderness and was established in 1935 as " * * a refuge and breeding ground for migratory birds and other wildlife" (Executive Order 7148, dated August 29,

1935). The Northeast Montana WMD was established in 1968 and consists of Waterfowl Production Areas and wetland and grassland easements. "Waterfowl Production Areas may be acquired without regard to the limitations and requirements of the Migratory Bird Conservation Act (16 U.S.C. 715 et seq.), but all of the provisions of such Act which govern the administration and protection of lands acquired thereunder, except the inviolate sanctuary provisions of such Act * * *" (16 U.S.C. 718 d). Lamesteer NWR, established in 1942 as an easement refuge, was described as "800 acres in Wibaux County, Montana, as refuge and breeding ground for migratory birds and other wildlife" (Executive Order 9166, dated May 19, 1942).

The refuge complex is home to approximately 280 species of birds, 38 species of mammals, and 17 species of reptiles and amphibians. Each unit of the National Wildlife Refuge System (Refuge System), including the Medicine Lake NWR Complex, has specific purposes for which it was established and for which legislation was enacted. Those purposes are used to develop and prioritize management goals and objectives within the Refuge System mission, and to guide which public uses will occur on these refuges. The planning process is a way for the Service and the public to evaluate management goals and objectives for the best possible conservation efforts of this important wildlife habitat, while
