

following priority overlays (in order): (1) Public customer; (2) Preferred Market-Maker entitlement; (3) Market Turner; and (4) DPM entitlement. If an order was received by the Hybrid system while this allocation structure was in place, public customer orders would trade first, the Preferred Market-Maker would trade second, the Market Turner would trade third, the DPM (DPM Complex) would trade fourth, if the Preferred Market-Maker was not present at the best price, and any remaining balance would trade using pro-rata.

The Exchange believes that adding this flexibility to its matching rules will allow for greater customization, resulting in enhanced service to its customers and users.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with section 6(b) of the Act³ in general, and furthers the objectives of section 6(b)(5) of the Act⁴ in particular, because: (i) The filing allows the Exchange to further customize the Hybrid matching algorithm in connection with customer preference without increasing the participation entitlement percentages applicable to option trading, which serves to remove impediments to and perfect the mechanism of a free and open market; and (ii) the filing proposes continued use of a purely objective method for allocating option trades which promotes just and equitable principles of trade.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or

(ii) as to which CBOE consents, the Commission will:

(A) By order approve such proposed rule change; or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Assessment: Milwaukee County, WI

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent to prepare an Environmental Assessment.

SUMMARY: The FHWA is issuing this notice to advise the public that an

Environmental Assessment will be prepared for a proposed interchange project in Milwaukee County, Wisconsin by the Wisconsin Department of Transportation (WisDOT).

FOR FURTHER INFORMATION CONTACT: David Scott, FHWA, Suite 8000 525 Junction Road, Madison, WI 53717; Telephone: (608) 829-7522.

SUPPLEMENTARY INFORMATION: The Federal Highway Administration (FHWA), in cooperation with the Wisconsin Department of Transportation (WisDOT), will prepare an Environmental Assessment on a proposal to improve the Zoo Interchange (I-94 and I-894/US 45 interchange) and adjacent interchanges in Milwaukee County, WI; a distance of approximately 7 miles. This freeway interchange has emerging pavement and structural needs, safety issues and design deficiencies. The proposed project may require full reconstruction and redesign of the Zoo Interchange as well as interchanges within the project limits of US 45 and Center Street on the north, I-94 at 116th on the west, I-94 and 76th Street on the east and I-894/US 45 at Union Pacific Railroad south of Greenfield Avenue on the south. The Environmental Assessment will evaluate the Zoo Interchange, I-94 and US 45 freeway mainline for the entire corridor as well as the service interchanges in Milwaukee County. Those service interchanges include US 45 and North Avenue, US 45 and Swan Boulevard/Watertown Plank Road, US 45 and Wisconsin Avenue/Bluemound Road, US 45/I-894 and Greenfield Avenue, I-94 and STH 100/108th Street, and I-94 and 84th Street interchanges.

The proposed Zoo Interchange project is intended to make necessary safety improvements and to accommodate existing and projected future traffic volumes through the interchange.

Public involvement will be solicited throughout this process including involvement from minority and low-income populations in the project study area to ensure that the construction of the corridor does not create disproportionately high and adverse environmental and health impacts to these communities. Public workshops and a series of public information meetings will be held during the project study. Public notice will be given as to the time and place of all workshops and public information meetings. In addition, a public hearing will be held after the Environmental Assessment has been prepared. A Zoo Interchange project study email address and a public website will be maintained throughout
