SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0004.
Title: Sections 1.1307 and 1.1311, Guidelines for Evaluating the Environmental Effects of Radiofrequency Radiation, Second Memorandum Opinion and Order, ET Docket No. 93-62, FCC 97-303.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households; business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 376,253 respondents; 376,253 responses.

Estimated Time per Response: .44 hours (average).

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection are contained in sections 4, 302, 303 and 307 of the Communications Act of 1934, as amended; 47 U.S.C. 154, 302, 303 and 307.

Total Annual Burden: 163,902 hours.

Total Annual Cost: \$28,691,703.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality: There is minimal exemption from the Freedom of Information Act (FOIA), 5 U.S.C. 552(b)(4) and FCC rules 47 CFR 0.459, that is granted for trade secrets, which may be submitted to the Commission as part of the documentation of test results. No other assurances of confidentiality are provided to respondents.

Needs and Uses: The Commission will submit this information collection (IC) to the OMB as an extension (no change in the reporting and/or third party disclosure requirements) during this comment period to obtain the full three-year clearance from them. Since the last submission to OMB, the Commission is reporting a +249,703 increase in respondents/responses; -92,178 hourly burden reduction; and a +\$27,498,703 increase in annual costs.

The National Environmental Policy Act of 1969 (NEPA) requires Federal agencies to evaluate the effects of their actions on human environmental quality. To comply with NEPA, the Commission adopted rules in 1997, 47 CFR 1.1307, which revised Radio Frequency (RF) exposure guidelines for FCC-regulated facilities. The guidelines reflect more recent scientific studies of FR electromagnetic fields and their biological effects, and are designed to ensure that the public and workers are adequately protected from exposure to potentially harmful FR electromagnetic fields.

The FCC staff uses the information required by section 1.1307 to determine whether the environmental evaluation is sufficiently complete and in compliance with the FCC rules to be acceptable for filing.

This information is needed because the Commission requires applicants to

perform an environmental evaluation with respect to radio frequency electromagnetic fields. Applicants are required to consider contributions from other transmitters within the vicinity of their facility in order to assess the cumulative exposure. Accordingly, to correctly determine compliance with the Commission's exposure limits, an applicant must locate, determine ownership, and gather technical information for all contributing transmitters.

Needs and Uses: This decision revised and made adjustments to the deployment schedule that must be followed by wireless carriers that chose to implement E911 service using a handset-based technology. The Commission also deferred the date for initial distribution of Automatic Location Identification (ALI)-capable handsets by seven months; adjusting the timetable for carriers to meet certain interim benchmarks for activating new ALI-capable handsets; deferred the date by which a carrier must achieve full penetration of ALI-capable handsets by one year; modified the manner in which the Commission defined full penetration; eliminated the separate handset phase-in schedule triggered by a request from a Public Safety Answering Point (PSAP), and addressed several other issues regarding implementation of enhanced 911 Phase II.

Synopsis of the Order

1. In this *Hearing Designation Order*, the Commission commences a hearing proceeding before a Commission Administrative Law Judge to determine whether the above-captioned application filed by William F. Crowell for renewal of his license for Amateur Radio Station W6WBJ should be granted. As discussed below, the record before us indicates that Castle has apparently willfully and repeatedly engaged in unlawful Commission-related activities, including, but not limited to, intentionally causing interference; transmitting music and one-way communications; and using slanderous, harassing, and indecent language on amateur frequencies. Based on the information before us, we believe that Crowell's apparent continuing course of misconduct raises a substantial and material question of fact as to whether he possesses the requisite character qualifications to be and remain a Commission licensee. Accordingly, we hereby designate his application for hearing.

2. Pursuant to sections 4(i) and 309(e) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and 309(e),
