FOR FURTHER INFORMATION CONTACT:

Terry Lee Smith, FMDA Project Manager, 4350 Cliffs Drive, Pocatello, Idaho 83204, phone 208-478-6392, email Terry_Lee_Smith@blm.gov.

SUPPLEMENTARY INFORMATION: Copies of the FMDA FEIS have been sent to affected Tribes, Federal, State, and local government agencies and to interested parties. The FMDA FEIS was developed with broad public participation through a five year collaborative planning process. It addresses management on approximately 5 million acres of public land comprising the Burley, Shoshone, Pocatello and Upper Snake Field Offices in south-central and eastern Idaho.

The FMDA FEIS would incorporate the National Fire Plan's Cohesive Strategy and the Federal Wildland Fire Management Policy into existing BLM land use plans. The FEIS displays the environmental effects of implementing those amended plans. The purpose of the proposed fire management plan amendments is to:

- Establish fire management guidance, objectives, policies, and management actions;
- Identify resource goals and methods, including desired future condition of the fire-related vegetation resources, and management actions necessary to achieve objectives;
- Form the basis to update fire management plans and integrate them with allotment management plans, wildlife management plans, recreation management plans, Idaho Standards for Rangeland Health and Guidelines for Livestock Grazing, and other applicable plans, to the greatest extent possible; and
- Provide consistent land use plan level direction to enable incremental steps toward a long-term resource goal of conditions that minimize risk to human life and property and maintain or restore vegetation that is resistant to catastrophic wildfire.

Five alternatives were analyzed in the FEIS. Alternative A, the No Action alternative, reflects current Land Use Plan direction, emphasizes wildland fire suppression, and minimizes the use of wildland fire for resource benefit. Alternative B emphasizes the increased use of fire, including prescribed fire and wildland fire use to more closely approximate the historical role of fire and the preparation of sites for

restoration treatments. Alternative C identifies full implementation of the Cohesive Strategy from the National Fire Plan (treats more acres with prescribed fire than the other alternatives). Alternative D focuses on maintaining or restoring the sagebrush steppe ecosystem and its associated wildlife species, including sage grouse. Alternative E, the proposed plan amendment, proposes maintaining or restoring the sagebrush steppe ecosystem and its associated wildlife species, including sage grouse as well as the maintenance and restoration of forested vegetation types.

The Draft Plan Amendment/DEIS was released to the public on November 5, 2004 for a 90-day public comment period. Copies of the Draft Plan Amendment/DEIS were mailed to interested publics, the document was posted on the BLM Idaho internet site, news releases were published in area local newspapers announcing the availability of the document. In early December 2004, public meetings were held in Idaho Falls, Pocatello, Boise, and Twin Falls, Idaho to facilitate public review and comment by providing summary information and answering questions during the public comment period. Based on public comments, Alternative E was developed from a combination of Alternative D with the forested vegetation component of Alternative C to provide an alternative that focuses on the fire management needs of both forested and rangeland vegetation types. Alternative E is analyzed in the FMDA FEIS.

Instructions for filing a protest with the Director of the BLM regarding the FMDA FEIS may be found at 43 CFR 1610.5-2. Electronic mail and facsimile protests will be considered only if the protesting party provides BLM with the original letter by either regular or overnight mail postmarked by the close of the protest period. Under those conditions, the BLM will consider the electronic or faxed version as an advance copy, and it will receive full consideration. If you wish to provide the BLM with such advance notification, please direct faxed protests to the attention of the BLM Protest Coordinator at (202) 452-5112 and electronic mails to Brenda_Hudgens-Williams@blm.gov. All protests, including the follow-up letter (if electronically mailed or faxed) must be in writing and mailed to one of the following addresses:

Regular Mail, Director (210), Attn: Brenda Hudgens-Williams, P.O. Box 66538, Washington, DC 20036.

Overnight Mail, Director (210), Attn: Brenda Hudgens-Williams, 1620 L Street, NW., Suite 1075, Washington, DC 20036.

Before including your address, phone number, e-mail address, or other personal identifying information in your protest, you should be aware that your entire protest—including your personal identifying information—may be made publicly available at any time. While you can ask us in your protest to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Thomas H. Dyer,

Bureau of Land Management, Idaho State Director.

Notice of Availability of Snake River Birds of Prey National Conservation Area Proposed Resource Management Plan and Final Environmental Impact Statement, Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*) and the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 *et seq.*), the Bureau of Land Management (BLM) has prepared a Proposed Resource Management Plan/Final Environmental Impact Statement (PRMP/FEIS) for the Snake River Birds of Prey National Conservation Area (NCA).

DATES: The BLM Planning regulations (43CFR 1610.5-2) state that any person who participated in the planning process and has an interest that may be adversely affected may protest the BLM's Proposed RMP. The protest must be filed within 30 days of the date that the Environmental Protection Agency publishes this Notice of Availability in the **Federal Register**.

Instructions for filing protests are described in the Dear Reader letter of the NCA PRMP/FEIS and in the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT: John Sullivan, NCA Manager, BLM Four Rivers Field Office, 3948 Development Ave., Boise, Idaho 83705, phone 208-

384-3300; e-mail address:
John_Sullivan@blm.gov.

SUPPLEMENTARY INFORMATION: The NCA encompasses approximately 484,000 acres of public land extending along 81 miles of the Snake River south of Boise, Idaho. The NCA was established on August 4, 1993 by Public Law 103-64 for the purpose of conserving, protecting, and enhancing North America's densest concentration of nesting and migrating raptor populations and habitats, and the natural and environmental resources and values associated with the area.

Key components of the proposed plan include land allocations and management guidance that provide for:

- Reducing further wildfire-related loss of native shrub habitat through aggressive wildfire suppression; however, it is anticipated that about 30,000 additional acres of remnant shrub habitat could potentially be lost to wildfire.

- Restoring 130,000 acres of degraded shrub habitat to stabilize small mammal populations which provide prey for raptors.

- Completing 100,000 acres of fuels management projects to protect the economic and ecological investments made in the habitat restoration program.

- Restricting or modifying currently authorized National Guard military training activities, including the restriction of off-road vehicle maneuver training on 22,300 acres; limiting vehicle maneuver training to non-shrub areas in the remaining maneuver areas to protect remnant shrub communities; and providing 4,100 additional acres to enhance military maneuvers.

- Remove the Area of Critical Environmental Concern (ACEC) designation for the Guffey Butte—Black Butte Archaeological District ACEC to eliminate redundant protective designations. The Guffey Butte—Black Butte Archaeological District ACEC was designated prior to establishment of the NCA in 1993. The protective withdrawal language included in the ACEC designation is redundant with those protections provided by the NCA-enabling Act and the Archaeological District designation and is therefore unnecessary.

Copies of the NCA Proposed RMP/FEIS have been sent to affected Federal, State, and Local Government agencies and to interested organizations and individuals. Copies of the Proposed RMP/FEIS are available for public inspection at the BLM Boise District Office, 3948 Development Ave., Boise, ID 83705. Interested persons may also view the Proposed RMP/FEIS on the

Internet at <http://www.id.blm.gov/id/st/en/prop/planning.1.html>. Changes were incorporated into the proposed plan based on public comments and internal BLM review of the Draft RMP and Environmental Impact Statement (EIS). Public comments resulted in BLM incorporating in the Proposed Alternative a new utility corridor south of the Snake River to be consistent with proposals being evaluated in the West-Wide Energy Corridor Study EIS. Further, BLM removed from the Proposed Alternative the proposed expansion of the existing shooting management area. No other proposed land use decisions were significantly affected, but comments did result in BLM adding clarifying language to certain sections.

As noted above, instructions for filing protests with the Director of the BLM regarding the Proposed RMP/FEIS may be found at 43 CFR 1610.5-2. E-mail and faxed protests will not be accepted as valid protests unless the protesting party also provides the original letter by either regular or overnight mail postmarked by the close of the protest period. Under these conditions the BLM will consider the e-mail or faxed protest as an advanced copy, and it will receive full consideration. If you wish to provide the BLM with such advance notification, please direct faxed protests to the attention of the BLM Protest Coordinator at (202) 452-5112 and e-mails to Brenda_Hudgens-Williams@blm.gov. All protests, including the follow-up letter (if e-mailing or faxing) must be in writing and mailed to the following address:

Regular mail	Overnight mail
Director (210), Attention: Brenda Hudgens-Williams, P.O. Box 66538, Washington, DC 20035..	Director (210), Attention: Brenda Hudgens-Williams, 1620 L Street, NW., Suite 1075, Washington, DC 20036.

Before including your address, phone number, e-mail address, or other personal identifying information in your protest, you should be aware that your entire protest—including your personal identifying information—may be made publicly available at any time. While you can ask us in your protest to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Following resolution of any protests of the proposed decision, a record of decision will be signed by the BLM Idaho State Director. A notice of availability of the record of decision

will be published in the **Federal Register** and will be made available through local media.

Thomas H. Dyer,

Bureau of Land Management, Idaho State Director.

Notice of Intent To Prepare a Resource Management Plan and Environmental Impact Statement for BLM-Alaska's Eastern Interior Planning Area

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: The Bureau of Land Management (BLM) Eastern Interior Field Office, Fairbanks, Alaska, intends to prepare a Resource Management Plan (RMP) with an associated Environmental Impact Statement (EIS) for the Eastern Interior Planning Area and by this notice announces the beginning of the public scoping period. Public scoping meetings will be held in Fairbanks, Delta Junction, Tok, Eagle, Chicken, Central, and Anchorage. Additional public scoping meetings may be held at Circle, Chalkyitsik, Fort Yukon, Stevens Village, Beaver, Birch Creek and other locations to be determined at a later date. The RMP will replace the existing Steese National Conservation Area Resource Management Plan, the White Mountains National Recreation Area Resource Management Plan, and the Fortymile Management Framework Plan. The RMP will also make land use decisions on previously unplanned public lands in the Upper Black River subunit.

DATES: The public scoping period will begin with the publication of this notice.

Formal scoping will end on July 1, 2008. The BLM will announce public scoping meetings to identify relevant issues through local news media, newsletters, and the BLM Web site, <http://www.blm.gov/ak>, at least 15 days prior to the first meeting. We will provide formal opportunities for public participation after release of the Draft RMP/EIS.

ADDRESSES: You may submit comments by any of the following methods:

- *E-mail:* eirmp_comments@blm.gov.
- *Fax:* (907) 474-2282.
