SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius Commission (Codex) was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The CCFA was formed in 2006 from the division of the Codex Committee on Food Additives and Contaminants. It was established to set or endorse maximum levels for individual food additives; prepare priority lists of food additives for risk assessment by the Joint FAO and WHO Expert Committee on Food Additives (JECFA); assign functional classes to individual food additives; recommend specifications of identity and purity for food additives for adoption by the Commission; consider methods of analysis for the determination of additives in food; and consider and elaborate standards or codes for related subjects, including the labeling of food additives when sold as such. The Committee is hosted by the People's Republic of China.

Issues To Be Discussed at the Public Meeting

The following items on the agenda for the 40th Session of the CCFA will be discussed during the public meeting:

- Matters Referred to the Committee from the Codex Alimentarius Commission and other Codex Bodies
- Matters of Interest arising from the FAO, WHO, and the JECFA

- Endorsement or Revision of Maximum Levels for Food Additives and Processing Aids in Codex Standards

- Consideration of the Codex General Standard for Food Additives (GSFA)

- Proposed Draft Revision of the Food Category System of the GSFA

- Proposed Draft Guidelines for the Use of Flavorings

- Discussion Paper on Guidelines and Principles for the Use of Processing Aids

- International Numbering System (INS) for Food Additives

- Specifications for the Identity and Purity of Food Additives

- Priority List of Food Additives Proposed for Evaluation by the JECFA

Each item listed above will be fully described in documents distributed, or to be distributed, by the Secretariat prior to the April 21-25, 2008, meeting in Beijing, China. Members of the public may access these documents from <http://www.codexalimentarius.net/current.asp>.

Public Meeting

At the March 12, 2008, public meeting, draft U.S. positions on the agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be sent electronically to the U.S. Delegate to the CCFA, Dr. Dennis Keefe at dennis.keefe@fda.hhs.gov. Written comments should state that they relate to activities of the 40th Session of the CCFA.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it online through the FSIS Web page located at http://www.fsis.usda.gov/regulations/2008_Notices_Index/. FSIS will also make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to constituents and stakeholders. The Update is communicated via Listserv, a free electronic mail subscription service for industry, trade groups, consumer interest groups, health professionals, and other individuals who have asked to be included. The Update is also available on the FSIS Web page. Through the Listserv and Web page, FSIS is able to provide information to a

much broader and more diverse audience. In addition, FSIS offers an electronic mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/. Options range from recalls to export information to regulations, directives and notices.
