

and the National Environmental Policy Act. It is intended to describe and evaluate the Trustee's proposal to restore natural resources injured by the release of hazardous materials at the North Zone Wetlands National Priorities List Site.

The RP/EAS describes a habitat restoration alternative agreed to in the natural resource damages settlement between KUCC and the Trustee, based on evaluation of several restoration alternatives. The preferred alternative consists of the restoration of a total of 249 hectares (616 acres) of land at the Lakepoint Wetland site through acquisition and preservation into perpetuity of land and water rights, habitat and waterway improvement, and other actions described within the RP/EAS. These actions will compensate for injuries to natural resources, including migratory birds, and migratory bird habitat.

The land described above contains approximately 49.79 acres in Lemhi County. The Lemhi County Commission proposes to continue the existing use of the parcels to meet the public needs of the Salmon area. Two of the parcels identified above have been used by Lemhi County since 1994 for the purposes of satellite dumpster sites to gather residential refuse and then transfer it to the Lemhi County Landfill located near Salmon, Idaho. The third site is authorized to Lemhi County for the purposes of a public rifle range and has been used for such purposes since 1993. All three sites were constructed and are maintained by Lemhi County or their assigned community board.
