SUPPLEMENTARY INFORMATION:

Background

In December 2007, the DOI, acting as natural resource Trustee, reached a natural resource damages settlement for natural resource injuries associated with the discharge of hazardous substances at KUCC's North Zone Wetlands National Priorities List site, located on the south shore of the Great Salt Lake in Salt Lake County, Utah. The discharge of hazardous substances and the remedial activities injured Service trust resources (migratory birds). The terms of the natural resource damages settlement compensate for injuries at the North Zone Wetlands site by directing the restoration of comparable natural resources at the Lakepoint Wetlands Site in Tooele County, Utah.

The RP/EAS is being released in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 as amended, commonly known as Superfund, (42 U.S.C. 9601 et seq.), the Natural Resource Damage Assessment Regulations found at 43 CFR, part 11,
