## DEPARTMENT OF COMMERCE

### National Institute of Standards and Technology

#### Proposed Information Collection; Comment Request; Evacuation Movement and Behavior Questionnaires

**AGENCY:** National Institute of Standards and Technology (NIST), Department of Commerce.

**ACTION:** Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted on or before May 5, 2008.

**ADDRESSES:** Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at [dHynek@doc.gov](mailto:dHynek@doc.gov)).

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument and instructions should be directed to Erica Kuligowski, [erica.kuligowski@nist.gov](mailto:erica.kuligowski@nist.gov), 301-975-2309.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

NIST will be collecting data on evacuation behavior and movement of occupants from approximately 50 high-rise buildings' evacuation drills in cities across the United States at a rate of several buildings per year. The high-rise buildings of interest include buildings of varying heights (e.g., 1-10 stories, 11-20 stories, 21-35 stories, and 35+ stories) and of varying occupancy types (e.g., residential, office, and assembly occupancies).

The proposed data collection will consist of questionnaires that will be distributed, by city or building's fire

department staff or NIST staff, to occupants who have evacuated previously-identified high-rise buildings as a part of a scheduled evacuation drill. The purpose of these questionnaires is to obtain information (anonymously) on: (1) The background of the occupant (occupant demographics, previous training and education in fire safety, and previous experience in fire evacuations); (2) actions and decisions made by the occupant on his/her floor during the building evacuation; and (3) actions and decisions made by the occupant during the building evacuation via the stairs and/or elevators. This information is necessary to better inform building and life safety code requirements, building occupant education and training about fire safety, and tools that are currently used to assess the life safety of high-rise buildings in the United States.

##### II. Method of Collection

This data will be collected via paper questionnaires. Either fire department staff will collect the questionnaires from the buildings or each questionnaire will be equipped with an NIST-address-stamped envelope and pre-paid postage.

##### III. Data

*OMB Control Number:* None.

*Form Number:* None.

*Type of Review:* Regular submission.

*Affected Public:* Individuals or households.

*Estimated Annual Number of Respondents:* 6,666.

*Estimated Time Per Response:* 10 minutes.

*Estimated Total Annual Burden Hours:* 1,111.

*Estimated Total Annual Cost to Public:* \$0.

##### IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection;

they also will become a matter of public record.

Dated: February 28, 2008.

### National Institute of Standards and Technology

#### Notice of Government Owned Invention Available for Licensing

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice of jointly owned invention available for licensing.

**SUMMARY:** The invention listed below is jointly owned by the U.S. Government as represented by the Department of Commerce, and Cree Inc. The invention is available for licensing in accordance with 35 U.S.C. 207 and 37 CFR part 404 to achieve expeditious commercialization of results of federally funded research and development.

#### FOR FURTHER INFORMATION CONTACT:

Technical and licensing information on this invention may be obtained by writing to: National Institute of Standards and Technology, Office of Technology Partnerships, Attn: Mary Clague, Building 222, Room A155, Gaithersburg, MD 20899. Information is also available via telephone: 301-975-4188, fax 301-975-3482, or e-mail: [mary.clague@nist.gov](mailto:mary.clague@nist.gov). Any request for information should include the NIST Docket number and title for the invention as indicated below.

**SUPPLEMENTARY INFORMATION:** NIST may enter into a Cooperative Research and Development Agreement ("CRADA") with the licensee to perform further research on the invention for purposes of commercialization. The invention available for licensing is: [NIST DOCKET NUMBER: 06-008]

*Title:* Power Switching Semiconductor Devices Including Rectifying Junction-Shunts.

*Abstract:* Typical applications for switching power devices (e.g., IGBT or Power MOSFET) require reverse conduction for rectification or clamping by either an internal or external diode. Because Power MOSFETs have an inherent PiN diode within the structure, this internal diode must either be made to work effectively for the rectification and clamping, or must be bypassed by an external diode. Because the inherent internal PiN diode results in majority

carrier injection from the drain-body junction (PN junction at Body-to-Drift-Layer interface) it has slow reverse recovery time and may result in SiC crystal degradation. The concept of inclusion of reverse conducting SIR junction shunts provides substantial benefits by: (1) Bypassing current flow from the inherent internal drain-body junction preventing it from injecting majority carriers and thus preventing slow reverse recovery and crystal degradation, and (2) enabling current to flow for voltages lower than the drain-body junction built in potential (e.g., approximately 3 V for SiC) and thus provides lower on-state losses than a PiN diode for the lower current range condition.

Dated: February 27, 2008.

### National Oceanic and Atmospheric Administration

#### Proposed Information Collection; Comment Request; Atlantic Highly Migratory Species Vessel and Gear Marking

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

**ACTION:** Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

**DATES:** Written comments must be submitted on or before *May 5, 2008*.

**ADDRESSES:** Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at [dHynek@doc.gov](mailto:dHynek@doc.gov)).

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument and instructions should be directed to Michael Clark, 301-713-2347 or [Michael.Clark@noaa.gov](mailto:Michael.Clark@noaa.gov).

**SUPPLEMENTARY INFORMATION:**

#### I. Abstract

Under current regulations at 50 CFR 635.6, fishing vessels permitted for Atlantic Highly Migratory Species must display their official vessel numbers on their vessels. Flotation devices attached to certain fishing gears must also be marked with the vessel's number to identify which vessel is responsible for the gear. These requirements are necessary for law enforcement and monitoring purposes.

Specifically, all vessels owners that hold a valid Highly Migratory Species (HMS) permit, other than an HMS angling permit, are required to mark their vessels with their vessel identification number. The numbers should be permanently affixed to, or painted on the port and starboard sides of the deckhouse or hull, and on an appropriate weather deck, so as to be clearly visible from an enforcement vessel or aircraft. Furthermore, fishermen that use longline gear must mark high-flyers and terminal buoys with their vessel identification number. The gillnet fishermen must mark their terminal buoys, and handgear or harpoon fishermen must mark all buoys attached to their gear with their vessel identification number. Buoy gear fishermen must mark all flotation devices attached to certain fishing gears.

#### II. Method of Collection

There is no form under this requirement. Official vessel numbers issued to vessel operators are marked on the vessel and on flotation devices attached to certain fishing gears, if applicable.

#### III. Data

*OMB Control Number:* 0648-0373.

*Form Number:* None.

*Type of Review:* Regular submission.

*Affected Public:* Business or other for-profit organizations; individuals or households.

*Estimated Number of Respondents:* 7,842.

*Estimated Time per Response:* 45 minutes to mark a vessel and 15 minutes to mark a flotation device.

*Estimated Total Annual Burden Hours:* 6,954.

*Estimated Total Annual Cost to Public:* \$286,040.

#### IV. Request for Comments

*Comments are invited on:* (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the

proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: February 27, 2008.
