Background and Purpose

Marine events are frequently held on the navigable waters within the boundary of the Fifth Coast Guard District. For a description of the geographical area of each Coast Guard Sector—Captain of the Port Zone, please see 33 CFR 3.25.

This regulation currently includes events such as sailing regattas, power boat races, swim races and holiday parades. Currently, there are over 60 annually recurring marine events and many other non-recurring events within the district. In the past, the Coast Guard regulated these events by creating individual special local regulations on a case by case basis. Most of these events required only the establishment of a regulated area and assignment of a patrol commander to ensure safety. Issuing individual, annual special local regulations has created a significant administrative burden on the Coast Guard. From 2005 to 2007 the Coast Guard created over 100 temporary regulations for marine events in the Fifth District. The numbers are expected to rise in 2008 with the growing popularity of water sports activities.

Additionally, for the majority of these events, the Coast Guard does not receive notification of the event, or important details of the event are not finalized by event organizers, with sufficient time to publish a notice of proposed rulemaking and final rule before the event date. The Coast Guard must therefore create

temporary final rules that sometimes are not completed until only days before the event. This results in delayed notification to the public, potentially placing the public and event participants at risk.

This proposed rule would significantly relieve the administrative burden on the Coast Guard, and at the same time allow the sponsor of the event and the Coast Guard to notify the public of these events in a timely manner. The public would be provided with notice of events through the table attached to this regulation. This table lists each recurring event that may be regulated by the Coast Guard, and indicates the sponsor, as well as the date and location of the event. Because the dates and locations of these events may change slightly from year to year, the specific information on each event, including the exact dates, specific areas, and description of the regulated area, would be provided to the public through a Local Notice to Mariners published before the event, as well as through Broadcast Notice to Mariners. This table would also be updated by the Coast Guard periodically to add new recurring events, remove events that no longer occur, and update listed events to ensure accurate information is provided.

Discussion of Proposed Rule

This proposed rule would apply to each event listed in the attached table to this rule. Events listed in the table are events that recur annually in the Fifth Coast Guard District. The table provides the event name and sponsor, as well as an approximate date and location of the event. The specific date and regulated area for each event would be provided in a Local Notice to Mariners and Broadcast Notice to Mariners prior to each event. Some events listed in the table currently have permanent regulations published in 33 CFR part 100, and these regulations would be removed because they no longer occur regularly.

For each event listed in the table, an event patrol, with a Patrol Commander in charge, may be assigned. The Patrol Commander may control the movement of all vessels in the regulated area(s). When hailed or signaled by an official patrol vessel, a vessel in these areas would be required to immediately comply with the directions given. Failure to do so may result in expulsion from the area, citation for failure to comply, or both. The Coast Guard Patrol Commander may terminate the event, or the operation of any vessel participating in the event, at any time it is deemed necessary for the protection of life or property.

Only event sponsors, designated participants, and official patrol vessels would be allowed to enter a regulated area. All persons and vessels not registered with the event sponsor as participants or official patrol vessels are considered spectators. Spectators may not enter the regulated area and may be confined to a designated spectator area to view the event. Spectators may contact the Coast Guard Patrol Commander to request permission to pass through the regulated area. If permission is granted, spectators would be required to pass directly through the regulated area at safe speed and without loitering.

Regulatory Evaluation

This proposed rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation is unnecessary. The effect of this proposed action merely establishes the dates on which the existing regulations would be enforced and consolidates them within one regulation. It would not impose any additional restrictions on vessel traffic.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This proposed rule would affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor in the areas where marine events are being held. This proposed regulation will not have a significant impact on a substantial number of small entities because it will only be enforced on marine events that have been permitted by the Coast Guard Captain of the Port. The Captain of the Port will ensure that small entities are able to operate in the areas where events are

occurring. Additionally, in most cases, vessels will be able to safely transit around the regulated area at all times, and, with the permission of the Patrol Commander, vessels may transit through the regulated area.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**. The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

Federalism

A rule has implications for federalism under Executive Order 13132. Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b) (2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these

standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Commandant Instruction M16475.ID which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is not likely to have a significant effect on the human environment. We believe that this rule should be categorically excluded, under figure 2–1, paragraph (34)(h), of the Instruction, from further environmental documentation. This proposed rule fits the category of paragraph 34(h) because it proposes to create special local regulations for regattas and marine parades.

We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

Words of Issuance and Proposed Regulatory Text

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 100 as follows:

PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233.

2. Revise § 100.501 to read as follows:

§ 100.501 Special Local Regulations; Marine Events in the Fifth Coast Guard District.

The following regulations apply to the marine events listed in Table 1 of this section. These regulations will be effective annually, for the duration of each event listed in Table 1. Annual notice of the exact dates and times of the effective period of the regulation with respect to each event, the

geographical area, and details concerning the nature of the event and the number of participants and type(s) of vessels involved will be published in Local Notices to Mariners and via Broadcast Notice to Mariners over VHF–FM marine band radio.

(a) *Definitions.* The following definitions apply to this section:

(1) *Coast Guard Patrol Commander.* A Patrol Commander is a commissioned, warrant, or petty officer of the Coast Guard who has been designated by the respective Coast Guard Sector—Captain of the Port to enforce these regulations.
