DEPARTMENT OF LABOR

Office of the Secretary

Submission for OMB Review; Comment Request

February 29, 2008.

The Department of Labor (DOL) hereby announces the submission of the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. chapter 35). A copy of this ICR, with applicable supporting documentation; including among other things a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained from the RegInfo.gov Web site at <http://www.reginfo.gov/public/do/PRAMain> or by contacting Darrin King on 202–693–4129 (this is not a toll-free number)/e-mail: king.darrin@dol.gov.

Interested parties are encouraged to send comments to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Mine Safety and Health Administration (MSHA), Office of Management and Budget, 725 17th Street, NW., Room 10235, Washington, DC 20503, Telephone: 202–395–4816/Fax: 202–395–6974 (these are not toll-free numbers), e-mail:

OIRA_submission@omb.eop.gov within 30 days from the date of this publication in the **Federal Register**. In order to ensure the appropriate consideration, comments should reference the applicable OMB Control Number (see below).

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Mine Safety and Health Administration.

Type of Review: Extension without change of currently approved collection.

Title: Examinations and Testing of Electrical Equipment Including Exam, Testing, and Maintenance of High Voltage Longwalls.

OMB Control Number: 1219–0116.

Form Number: None.

Estimated Number of Respondents: 917.

Estimated Total Annual Burden Hours: 760,553.

Estimated Total Annual Cost Burden: \$0.

Affected Public: Inadequate maintenance of electric equipment is a major cause of serious electrical accidents in the coal mining industry. Improperly maintained electric equipment has also been responsible for many disastrous mine fires and explosions. The Department’s regulations at 30 CFR parts 75 and 77 contain recordkeeping requirements which may in some instances help operators in implementing an effective maintenance program. The subject records of tests and examinations are examined by coal miners, coal mine officials, and MSHA inspectors. MSHA inspectors examine the records to determine if the required tests and examinations have been conducted, to identify units of electric equipment that may pose a potential safety hazard, to determine the probable cause of accidents during accidents investigations, and to evaluate the effectiveness of the coal mine operator’s electrical maintenance programs. By comparing the records with the actual condition of electric equipment, MSHA inspectors may in some cases be able to identify weaknesses in the coal mine operator’s electrical maintenance programs and require that the weaknesses be corrected. For additional information, see related notice

published on December 20, 2007 at 72 FR 72390.
