SMALL BUSINESS ADMINISTRATION

13 CFR Part 121

RIN 3245-AF66

Small Business Size Standards; Adoption of Size Standards by 2007 North American Industry Classification System for Size Standards

AGENCY: Small Business Administration.

ACTION: Direct final rule; correcting amendment.

SUMMARY: The U.S. Small Business Administration (SBA) is correcting the direct final rule it published in the **Federal Register** on August 29, 2007, that amended its Small Business Size Regulations by incorporating the Office of Management and Budget's (OMB) 2007 modifications of the North American Industry Classification System (NAICS) into its table of small business size standards. The direct final rule published on August 29, 2007 established an incorrect small business size standard for NAICS 517919, All Other Telecommunications. The correct small business size standard is \$23.0 million in average annual receipts. Also, the descriptive titles for 19 NAICS codes are also being amended by this action. SBA is changing the industry descriptions in its table of size

standards so they will match the descriptions published by OMB in NAICS 2007.

DATES: *Effective Date:* March 11, 2008.

FOR FURTHER INFORMATION CONTACT: Carl Jordan, Program Analyst, Division of Size Standards, at (202) 205-6618 or sizestandards@sba.gov.

SUPPLEMENTARY INFORMATION: SBA published a direct final rule in the August 29, 2007 **Federal Register** (72 FR 49639) to amend its Small Business Size Regulations by incorporating the OMB 2007 modifications of the North American Industry Classification System (NAICS) into its table of small business size standards.

In the direct final rule, SBA included Table 1 which provided rules for establishing size standards upon incorporating NAICS 2007 into its table of size standards. Rule #3 in Table 1 stated the following:

TABLE 1

If the NAICS 2007 industry is composed of	The size standard for the NAICS industry will be
3. More than one NAICS 2002 industry; parts of more than one NAICS 2002 industry; or one or more NAICS 2002 industry and part(s) of one or more NAICS 2002 industry, and they do not all have the same size standard.	The same size standard as for the NAICS 2002 industry or NAICS 2002 industry part(s) that most closely matches the economic activity described by the NAICS 2007 industry.

Applying Rule #3 from Table 1, SBA had indicated on pages 49642 and 49643 of the direct final rule that the small business size standard for NAICS 517919, All Other Telecommunications, would be \$23.0 million in average annual receipts. However, SBA incorrectly stated in item 2(n) on page 49644 that the small business size

standard is \$23.5 million in average annual receipts.

Because SBA properly applied Rule #3 from Table 1 of the direct final rule, the correct size standard is \$23.0 million, and this action corrects 13 CFR 121.201 to reflect the correct size standard.

In addition, SBA is correcting the Industry Descriptions for 19 NAICS industries in its table of size standards

to match the industry descriptions in NAICS 2007. Table 2, below, is a list of the NAICS codes with the titles as published in the August 29, 2007 **Federal Register**, and as corrected. The following changes to the industry descriptions do not affect any small business size standards; the small business size standards for these NAICS codes remain unchanged.
