

consultation for its Waterborne Diseases—Measures to Link Drinking Water Programs to Public Health Outcomes (Measures) and review its Draft Drinking Water Contaminant Candidate List 3 (CCL3) document.

Measures—EPA's Office of Water (OW) produced a draft Measure Development Plan in October, 2004. The purpose of the plan is to develop long-term measures that describe changes over time of disease due to drinking water contamination or changes in the occurrence of indicators of waterborne disease. The objective of the measures is to demonstrate the effectiveness of drinking water programs on epidemic and endemic, acute and chronic disease related to microbes or other water contaminants. The SAB is being asked to comment on the effectiveness of this plan to produce outcome measures.

CCL3—The 1996 Safe Drinking Water Act amendments (SDWA) require EPA to (1) publish every five years a list of currently unregulated contaminants in drinking water that may pose risks (the Contaminant Candidate List or "CCL"), and (2) make determinations on whether or not to regulate at least five contaminants from that list on a staggered five year cycle. SDWA requires EPA to publish a new list of contaminants that are known or anticipated to occur in public water systems every five years. The first CCL (CCL1) was published or finalized on March 2, 1998 (63 FR 10273). CCL1 was developed based on the review by technical experts of readily available information and contained 50 chemicals and 10 microbial contaminants/groups. EPA consulted with the scientific community, including the Science Advisory Board, on a process for developing the first CCL. The second CCL (CCL2) was published on February 24, 2005 (70 FR 9071). CCL2 carried forward the remaining 51 chemical and microbial contaminants listed on CCL1. The Agency is evaluating data and research on these chemicals and microbes to make regulatory determinations on the contaminants listed CCL2. The draft CCL3 includes 93 chemicals or chemical groups and 11 microbiological contaminants. The EPA is seeking comment from the SAB DW on the draft CCL3, the approach used to develop the list, and other specific contaminants.

Availability of Meeting Materials: The meeting agendas and other materials including a link to the Office of Water's draft Measures document will be posted on the SAB Web Site at: (<http://www.epa.gov/sab>) in advance of the meeting. The CCL3 draft can be found at: [\[WATER/2008/February/Day-21/w3114.pdf\]\(#\). For questions and information concerning the Agency's documents, please contact Ms. Valerie Blank for Measures at 202-564-1720 or \[blank.valerie@epa.gov\]\(mailto:blank.valerie@epa.gov\). Please contact Mr. Thomas Carpenter for CCL3 at 202-564-4885 or \[carpenter.thomas@epa.gov\]\(mailto:carpenter.thomas@epa.gov\).](http://www.epa.gov/fedrgrstr/EPA-</p>

Procedures for Providing Public Input:

Interested members of the public may submit relevant written or oral information for the Drinking Water Committee to consider throughout the advisory process. **Oral Statements:** In general, individuals or groups requesting an oral presentation at a public SAB teleconference will be limited to three minutes per speaker, with no more than a total of one-half hour for all speakers. At the face-to-face meeting, presentations will be limited to five minutes, with no more than a total of one hour for all speakers. To be placed on the public speaker list, interested parties should contact Dr. Sue Shallal, DFO, in writing (preferably via e-mail), by March 26, 2008 for the teleconference and by April 16, 2008 for the face-to-face meeting, at the contact information noted above. **Written Statements:** Written statements should be received in the SAB Staff Office by March 26, 2008, so that the information may be made available to the SAB for their consideration prior to the teleconference or by April 16, 2008 for their consideration prior to the face-to-face meeting. Written statements should be supplied to the DFO via e-mail to shallal.suhair@epa.gov (acceptable file format: Adobe Acrobat PDF, WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format).

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Sue Shallal at (202) 343-9977 or shallal.suhair@epa.gov. To request accommodation of a disability, please contact Dr. Shallal preferably at least ten days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: March 5, 2008.

Anthony F. Maciorowski,
Deputy Director, EPA Science Advisory Board
Staff Office.

BILLING CODE 6560-50-P

EXPORT-IMPORT BANK OF THE UNITED STATES

Sunshine Act Meeting

ACTION: Notice of a partially open meeting of the Board of Directors of the Export-Import Bank of the United States.

TIME AND PLACE: Thursday, March 13, 2008 at 9:30 a.m. The meeting will be held at Ex-Im Bank in Room 1143, 811 Vermont Avenue, NW., Washington, DC 20571.

OPEN AGENDA ITEMS: Item No. 1: Local Cost Policy, OECD Rule Change.

PUBLIC PARTICIPATION: The meeting will be open to public participation for Item No. 1 only.

FURTHER INFORMATION: For further information, contact: Office of the Secretary, 811 Vermont Avenue, NW., Washington, DC 20571 (Tele. No. 202-565-3957).

Howard A. Schweitzer,
General Counsel.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

March 4, 2008.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to (PRA) of 1995 (PRA), Public Law No. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Subject to the PRA, no person shall be subject to any penalty for failing to comply with a collection of information that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated

collection techniques or other forms of information technology.

DATES: Written PRA comments should be submitted on or before May 12, 2008. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit all PRA comments by e-mail or U.S. post mail. To submit your comments by e-mail, send them to PRA@fcc.gov. To submit your comments by U.S. mail, mark them to the attention of Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s), contact Cathy Williams at (202) 418-2918 or send an e-mail to PRA@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0289.

Title: Section 76.76.601(a),

Performance Tests; Section 76.1704(a)(b), Proof of Performance Test Data; Section 76.1705, Performance Tests (Channels Delivered); Section 76.1717, Compliance with Technical Standards.

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; State, local or Tribal Government.

Number of Respondents: 8,250.

Estimated Time per Response: 0.5-70 hours.

Frequency of Response:

Recordkeeping requirement; Semi-annual reporting requirement; Triennial reporting requirement; Third party disclosure requirement.

Total Annual Burden: 276,125 hours.

Total Annual Costs: None.

Nature of Response: Required to obtain or retain benefits.

Confidentiality: No need for confidentiality required.

Privacy Impact Assessment: No impact(s).

Needs and Uses: 47 CFR 76.601(b) requires the operator of each cable television system shall conduct complete performance tests of that system at least twice each calendar year (at intervals not to exceed seven months), unless otherwise noted below. The performance tests shall be directed at determining the extent to which the system complies with all the technical standards set forth in § 76.605(a) and shall be as follows:

(1) For cable television systems with 1,000 or more subscribers but with

12,500 or fewer subscribers, proof-of-performance tests conducted pursuant to this section shall include measurements taken at six (6) widely separated points. However, within each cable system, one additional test point shall be added for every additional 12,500 subscribers or fraction thereof (e.g., 7 test points if 12,501 to 25,000 subscribers; 8 test points if 25,001 to 37,500 subscribers, etc.). In addition, for technically integrated portions of cable systems that are not mechanically continuous (i.e., employing microwave connections), at least one test point will be required for each portion of the cable system served by a technically integrated microwave hub. The proof-of-performance test points chosen shall be balanced to represent all geographic areas served by the cable system. At least one-third of the test points shall be representative of subscriber terminals most distant from the system input and from each microwave receiver (if microwave transmissions are employed), in terms of cable length. The measurements may be taken at convenient monitoring points in the cable network: Provided, that data shall be included to relate the measured performance of the system as would be viewed from a nearby subscriber terminal. An identification of the instruments, including the makes, model numbers, and the most recent date of calibration, a description of the procedures utilized, and a statement of the qualifications of the person performing the tests shall also be included.

(2) Proof-of-performance tests to determine the extent to which a cable television system complies with the standards set forth in § 76.605(a) (3), (4), and (5) shall be made on each of the NTSC or similar video channels of that system. Unless otherwise as noted, proof-of-performance tests for all other standards in § 76.605(a) shall be made on a minimum of four (4) channels plus one additional channel for every 100 MHz, or fraction thereof, of cable distribution system upper frequency limit (e.g., 5 channels for cable television systems with a cable distribution system upper frequency limit of 101 to 216 MHz; 6 channels for cable television systems with a cable distribution system upper frequency limit of 217-300 MHz; 7 channels for cable television systems with a cable distribution system upper frequency limit to 300 to 400 MHz, etc.). The channels selected for testing must be representative of all the channels within the cable television system.

(3) The operator of each cable television system shall conduct semi-

annual proof-of-performance tests of that system, to determine the extent to which the system complies with the technical standards set forth in § 76.605(a)(4) as follows. The visual signal level on each channel shall be measured and recorded, along with the date and time of the measurement, once every six hours (at intervals of not less than five hours or no more than seven hours after the previous measurement), to include the warmest and the coldest times, during a 24-hour period in January or February and in July or August.

(4) The operator of each cable television system shall conduct triennial proof-of-performance tests of its system to determine the extent to which the system complies with the technical standards set forth in § 76.605(a)(11).

47 CFR 76.601 states prior to additional testing pursuant to Section 76.601(c), the local franchising authority shall notify the cable operator, who will then be allowed thirty days to come into compliance with any perceived signal quality problems which need to be corrected.

47 CFR 76.1704 requires that proof of performance test required by 47 CFR Section 76.601 shall be maintained on file at the operator's local business office for at least five years. The test data shall be made available for inspection by the Commission or the local franchiser, upon request. If a signal leakage log is being used to meet proof of performance test recordkeeping requirement in accordance with Section 76.601, such a log must be retained for the period specified in 47 CFR Section 76.601(d).

47 CFR 76.1705 requires that the operator of each cable television system shall maintain at its local office a current listing of the cable television channels which that system delivers to its subscribers.

47 CFR 76.1717 states that an operator shall be prepared to show, on request by an authorized representative of the Commission or the local franchising authority, that the system does, in fact, comply with the technical standards rules in part 76, subpart K.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
