The FCC Form 605 is a multi-part, consolidated, general application form that is part of the Universal Licensing System (ULS). FCC Form 605 includes a main form containing administrative information and a series of Schedules

used to file technical information applicable to a specific radio service. The form is used to file for authorization to operate radio stations, amend pending applications, modify existing licenses, renew or renew/modify existing licenses, request cancellation of a license, withdraw a pending application, request a duplicate license, or request an administrative update of an existing license (i.e., name change without change to corporate structure or control), change mailing address, change name of vessel, etc. in the Ship (Part 80), Aircraft (Part 87), Amateur (including Amateur Vanity) (Part 97), Restricted and Commercial (Part 13), and General Mobile Radio Services (GMRS) (Part 95). This form is also used to apply for a Developmental License or a Special Temporary Authority (STA) in these services and to self-certify for temporary authorization to operate where applicable. Respondents are encouraged to submit FCC Form 605 electronically via ULS. The FCC uses the information collected on the FCC Form 605 to determine whether the applicant is legally, technically, and financially qualified to obtain a license. Without such information, the Commission cannot determine whether to issue the licenses to the applicants that provide telecommunication services to the public, and therefore, to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended. Information provided on this form will also be used to update the Commission's database and to provide for proper use of the frequency spectrum as well as enforcement purposes.

Needs and Uses: The Commission adopted on February 19, 2008, a Report and Order, *In the Matter DTV Consumer Education Initiative*, MB Docket 07-148, FCC 08-56. As the Nation transitions from analog broadcast television service to digital broadcast television service, the Commission has been committed to working with representatives from industry, public interest groups, and Congress to make the significant benefits of digital broadcasting available to the public. The digital transition will make valuable spectrum available for both public safety uses and expanded wireless competition and innovation. By compressing television broadcasting into a smaller amount of the available spectrum, the digital transition has allowed the Commission to make valuable 700 MHz spectrum available for sale and use by wireless companies and public safety organizations. The transition will also provide consumers with better quality television picture and sound, and make new services

available through multicasting. These innovations, however, are dependent upon widespread consumer understanding of the benefits and mechanics of the transition. The Congressional decision to establish a hard deadline of February 17, 2009, for the end of full-power analog broadcasting has made consumer awareness even more critical. In this Order, the Commission imposes the following information and disclosure requirements:

(a) Broadcaster Education and Reporting (47 CFR 73.674).

(i) On-air Education. Broadcasters must provide on-air DTV Transition consumer education information (e.g., via Public Service Announcements (PSAs) or information crawls) to their viewers. Broadcasters must comply with one of three alternative sets of rules as provided in the Report and Order.

(ii) DTV Consumer Education Quarterly Activity Report, FCC Form 388. Broadcasters must electronically file a report about its DTV Transition consumer education efforts to the Commission on a quarterly basis. Broadcasters must begin filing these quarterly reports no later than April 10, 2008. In addition, if the broadcaster has a public website, they must post these reports on that Web site.

(b) Multichannel Video Programming Distributor (MVPD) Customer Bill Notices (47 CFR 76.1630). MVPDs, which include, for example (and are not limited to), cable operators, direct broadcast satellite (DBS) carriers, open video system operators, and private cable operators, must provide monthly notices about the DTV transition in their customer billing statements.

(c) Consumer Electronics Manufacturer Notices (47 CFR 15.124). Parties that manufacture, import, or ship interstate television receivers and devices designed to work with television receivers must provide notice to consumers of the transition's impact on that equipment. This information must be included with all devices shipped, beginning on the effective date of these rules, until March 31, 2009.

(d) DTV.gov Partner Consumer Education Reporting. DTV.gov Transition Partners must report their consumer education efforts, as a condition of continuing Partner status. They must begin filing these quarterly reports no later than April 10, 2008.

(e) Eligible telecommunications carriers (ETCs) Federal Universal Service Low-Income Program Participant Notices (47 CFR 54.418). ETCs that receive federal universal service funds must provide monthly notice of the transition to their low

income customers and potential customers. This information must be provided beginning on the effective date of these rules, until March 31, 2009.

(f) 700 MHz Auction Winner Consumer Education Reporting (47 CFR 27.20). Winners of the 700 MHz spectrum auction must report their consumer education efforts to the Commission on a quarterly basis. These parties must file the first by the tenth day of the first calendar quarter following the initial grant of the license authorization that the entity holds.

The Report and Order adds a new recordkeeping requirement for full-power commercial and noncommercial educational TV broadcast stations (both analog and digital) for the contents of their public inspection files. Specifically, the rule requires these stations to retain in their public inspection file a copy of their DTV Consumer Education Quarterly Activity Report, FCC Form 388, on a quarterly basis.
