**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Annual Wholesale Trade Survey (AWTS) covers companies with employment that are primarily engaged in merchant wholesale trade in the United States, including wholesalers that take title of the goods they sell such as jobbers, industrial distributors, exporters, importers, and manufacturers' sales branches and offices. Additionally, the AWTS includes companies that do not take title of the goods they sell such as agents, merchandise or commodity brokers, commission merchants, and electronic business-to-business markets. The Bureau of Economic Analysis uses this information to improve the inventory valuation adjustments applied

to estimates of the Gross Domestic Product, and considers these data vital inputs to the National Income and Product accounts and annual input-output tables.

The estimates produced from the AWTS are based on a probability sample and are published on the North American Industry Classification System basis. The sample design consists of small, medium, and large businesses requested to report sales on one of six questionnaires (the three classifications that follow are broken into separate questionnaires for company or single establishment reporters). Merchant wholesale establishments, excluding manufacturers' sales branches and offices, are requested to provide sales, e-commerce, inventories, method of inventory valuation, inventories held outside the United States, purchases, and operating expenses. Manufacturers' sales branches and offices are requested to provide sales, e-commerce, inventories, method of inventory valuation, inventories held outside the United States, and operating expenses. The agents, merchandise or commodity brokers, commission merchants, and electronic business-to-business markets are requested to provide commissions, sales on their own account, e-commerce, and operating expenses. The sample, consisting of approximately 8,900 businesses, is drawn from the Business Register, which contains all Employer Identification Numbers (EINs) and listed establishment locations. The sample is updated quarterly to reflect employer "births" and "deaths"; adding new employer businesses identified in the Business and Professional Classification Survey and deleting firms and EINs when it is determined they are no longer active.

Data from the AWTS are published at the United States summary level for selected wholesale industries approximately fourteen months after the end of the collection year.
