

National Marine Sanctuary and the Monterey Bay National Marine Sanctuary), the Elkhorn Slough National Estuarine Research Reserve and the U.S. Coast Guard sit as non-voting members.

Four working groups support the Advisory Council: The Research Activity Panel ("RAP") chaired by the Research Representative, the Sanctuary Education Panel ("SEP") chaired by the Education Representative, the Conservation Working Group ("CWG") chaired by the Conservation Representative, and the Business and Tourism Activity Panel ("BTAP") co-chaired by the Business/Industry and Tourism Representatives, each dealing with matters concerning research, education, conservation and human use. The working groups are composed of experts from the appropriate fields of interest and meet monthly, or bi-monthly, serving as invaluable advisors to the Advisory Council and the Sanctuary Superintendent.

The Advisory Council represents the coordination link between the Sanctuary and the state and federal management agencies, user groups, researchers, educators, policy makers, and other various groups that help to focus efforts and attention on the central California coastal and marine ecosystems.

The Advisory Council functions in an advisory capacity to the Sanctuary Superintendent and is instrumental in helping develop policies, program goals, and identify education, outreach, research, long-term monitoring, resource protection, and revenue enhancement priorities.

The Advisory Council works in concert with the Sanctuary Superintendent by keeping him or her informed about issues of concern throughout the Sanctuary, offering recommendations on specific issues, and aiding the Superintendent in achieving the goals of the Sanctuary program within the context of California's marine programs and policies.

Public Hearing on the Proposed St. Louis River Site for a Lake Superior National Estuarine Research Reserve in Wisconsin

AGENCY: The Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Public Hearing Notice.

SUMMARY: Notice is hereby given that the University of Wisconsin—Extension, the WI Department of Administration's Coastal Management Program and the WI Department of Natural Resources with the support of the Estuarine Reserves Division of the Office of Ocean and Coastal Resource Management (OCRM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce, will hold a public hearing for the purpose of receiving comments on the preliminary recommendation that the St. Louis River Estuary be proposed for designation as a National Estuarine Research Reserve in Wisconsin.

The state agencies will hold a public hearing at 6 p.m. on April 3rd, 2008 at the Wisconsin Indianhead Technical College—Superior Conference Center, 600 North 21st Street, Superior, WI 578701.

The views of interested persons and organizations on the proposed site recommendation are solicited, and may be expressed orally and/or in written statements. An informational presentation on the St. Louis River Estuary and the National Estuarine Research Reserve System (NERRS) is scheduled for 7 p.m. All comments received at the hearing will be considered in a formal nomination by the state to NOAA.

The NERRS is a federal-state partnership that is administered by the National Oceanic and Atmospheric Administration (NOAA). The system protects more than 1.3 million acres of estuarine habitat for long-term research, monitoring, education and stewardship throughout the coastal United States. Established by the Coastal Zone Management Act of 1972, as amended, each reserve is managed by a lead state agency or university, with input from local partners. NOAA provides funding and national programmatic guidance.

The NERR site selection effort is a culmination of several years of local,

grassroots support for a Wisconsin NERR on Lake Superior. The recommendation of the St. Louis site follows a year-long process to gather information about all of the freshwater estuaries on Lake Superior's south shore. The site selection process involved dozens of meetings with scientists, agency land managers, public officials and citizens.
