Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at http://www.ferc.gov. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission’s eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission’s Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208-8544 (toll free). For TTY, call (202) 502-8659.

BILLING CODE 6717–01–P
Environmental Impact Statements and Regulations:

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at 202–564–7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 6, 2007 (72 FR 17156).

Draft EISs

Summary: EPA expressed environmental concerns about the long-term impacts to marine habitats and migratory species from dredge/fill actions, and requested a more thorough cumulative impacts analysis and suggested the Corps consider developing a broader shoreline management strategy. Rating EC2.

Summary: EPA does not object to the proposed action. Rating LO.

Final EISs

Summary: EPA continues to have environmental concerns about cumulative impacts to air quality, especially with the level of resource development in southwest Wyoming. EIS No. 20080007, ERP No. F–STA–J03021–00, Keystone Oil Pipeline Project, Proposed Construction, Connection, Operation and Maintenance, Applicant for Presidential Permit, ND, SD, NE, KS, MO, IL, and OK.

Summary: EPA expressed environmental concerns about wetlands, and requested clarification on the applicability of Executive Order 11990.

Summary: EPA continues to have environmental concerns about impacts to fisheries.

EIS No. 20080039, ERP No. F–BLM–K39018–NV, Kane Springs Valley Groundwater Development Project, to Construct Infrastructure Required to Pump and Convey Groundwater Resources, Right-of-Way Application, Lincoln County Water District, Lincoln County, NV.

Summary: EPA continues to have environmental concerns about cumulative impacts to the Kane Springs Valley carbonate-rock aquifer, especially long-term reliability. The final EIS did not include information on water use efficiency, supply and demand management measures, and back-up water supplies; we recommend that this information be included in the ROD with a commitment to work closely with groundwater users to promote sustainable use measures.
