

comments. In addition, Western is proposing to eliminate the reference to the "Western System Power Pool" in the Rate Schedule for Spinning and Supplement Reserves (SP-SSR-3) to make it consistent with the other regions within Western and to clarify better how those rates are determined. In conjunction with extending the comment and consultation period, Western will hold an additional public information and public comment forum.

Legal Authority

Since the proposed rates constitute a major rate adjustment as defined by 10 CFR part 903, Western has held both a public information forum and a public comment forum and, as indicated in this notice, will hold an additional public information and public comment forum. After a review of public comments and possible amendments or adjustments, Western will recommend a proposed rate for the Deputy Secretary of Energy to approve on an interim basis.

Western is establishing firm electric service rates for the SCLA/IP under the Department of Energy Organization Act (42 U.S.C. 7152); the Reclamation Act of 1902 (ch. 1093, 32 Stat. 388), as amended and supplemented by subsequent laws, particularly section 9(c) of the Reclamation Project Act of 1939 (43 U.S.C. 485h(c)); and other acts that specifically apply to the projects involved.

By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to Western's Administrator; (2) the authority to confirm, approve, and place such rates into effect on an interim basis to the Deputy Secretary of Energy; and (3) the authority to confirm, approve, and place into effect on a final basis, to remand, or to disapprove such rates to the Commission. Existing Department of Energy (DOE) procedures for public participation in power rate adjustments (10 CFR part 903) were published on September 18, 1985.

Availability of Information

All brochures, studies, comments, letters, memorandums, or other documents that Western initiates or uses to develop the proposed rates are available for inspection and copying at the CRSP Management Center, 150 East Social Hall Avenue, Suite 300, Salt Lake City, Utah. Many of these documents and supporting information are also available on its Web site under the "FY 2009 SLCA/IP Rate Adjustment" section located at: <http://www.wapa.gov/CRSP/ratescrsp/default.htm>.

Regulatory Procedure Requirements

Environmental Compliance

In compliance with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321, *et seq.*); the Council on Environmental Quality Regulations for implementing NEPA (40 CFR parts 1500-1508); and DOE NEPA Implementing Procedures and Guidelines (10 CFR part 1021), Western has determined this action is categorically excluded from preparing an environmental assessment or an environmental impact statement.

Determination Under Executive Order 12866

Western has an exemption from centralized regulatory review under Executive Order 12866; accordingly, no clearance of this notice by the Office of Management and Budget is required.

Protection of Stratospheric Ozone; Launch of Electronic Reporting System

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is prepared to receive, in electronic form, certain documents required under the regulations at 40 CFR Part 82 for the Stratospheric Ozone Protection Program. EPA is launching an electronic reporting system that will allow producers, importers, and exporters of Class I ozone-depleting substances (except methyl bromide) and Class II ozone-depleting substances to submit quarterly reports electronically. EPA believes that, for many users, electronic reporting will allow reporting to occur with greater ease, speed, and accuracy than the paper-based reporting systems.

FOR FURTHER INFORMATION CONTACT:

Jennifer Bohman, Stratospheric Protection Division, Office of Air and Radiation (6205J), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 343-9548; fax number: (202) 343-2338; e-mail address: bohman.jennifer@epa.gov. Additional information, including the electronic

reporting forms, training and guidance documents are found at <http://www.epa.gov/ozone/record/ereport.html>.

SUPPLEMENTARY INFORMATION:

I. General Information

A. What Action is the Agency Taking?

EPA is launching an electronic reporting system that will allow the electronic submission of certain quarterly reports. Over the past year, EPA has conducted a pilot effort to use and evaluate an electronic reporting system. EPA has refined the system based on recommendations from the pilot participants. EPA is now launching the electronic reporting system and providing an opportunity for all eligible participants to use the system.

B. What Is the Agency's Authority for Taking This Action?

EPA is establishing this electronic reporting system under section 603(b) of the Clean Air Act which states that "on a quarterly basis, or such other basis (not less than annually) as determined by the Administrator, each person who produced, imported, or exported a class I or class II substance shall file a report with the Administrator. * * *"

EPA offers the electronic reporting system as an alternative to the existing paper-based reporting system. The electronic reporting system does not contain any new or additional requirements. The electronic reporting system is compliant with EPA's Cross Media Electronic Reporting Rule.

C. What Reports Can Be Submitted Electronically?

The electronic reporting system currently allows producers, importers, and exporters of Class I ozone-depleting substances (except methyl bromide) and Class II ozone-depleting substances to submit quarterly reports electronically. These quarterly reports, among others, are required under our regulations at 40 CFR 82.13 and 82.24. In addition to the quarterly report data, participants will also be able to submit supporting documents that would have been attached to hard copy reports under the previous system.

EPA anticipates expanding the electronic reporting system to include additional reports required by the Stratospheric Ozone Protection Program's regulations.

D. Am I Required To Submit Reports Electronically?

EPA strongly encourages companies to use the electronic reporting system.

EPA believes that electronic submission of data will be easier, faster, and more accurate. However, EPA will continue to accept paper reporting forms.

E. How Is EPA Protecting Information Submitted Electronically?

This electronic reporting system is compliant with the Cross Media Electronic Reporting Rule, a base standard that ensures the security of electronic data submissions. In addition, because reporting companies typically claim the quarterly report information as confidential, EPA has implemented robust measures to ensure protection of data submitted electronically, including digital electronic signatures and an encryption and decryption process that meets Agency and industry standards for data security.

F. How Will I Know if EPA Received Information Submitted Electronically?

EPA recognizes the importance of a smooth transition from a paper-based reporting system to an electronic reporting system. Submitters of electronic data will receive e-mail confirmation that EPA has received an electronic data submission. In addition, to ensure the new electronic process is established correctly on users' networks, EPA is requiring participants in electronic reporting to continue submitting hard-copy forms for the first two quarters they are submitting data electronically.

G. How Do I Find Out More About Electronic Reporting?

EPA is providing a number of training resources to assist companies who may wish to transition to the electronic reporting system. Interested companies will be able to download electronic reporting forms, training and guidance documents from EPA's Stratospheric Ozone Protection Program Web site at <http://www.epa.gov/ozone/record/ereport.html>. EPA will also host online training sessions to provide detailed instructions, demonstrations, and an open forum to discuss the online reporting system. Information on such outreach will be available on EPA's Web site. In addition, EPA will provide help desk assistance for companies as they develop and submit electronic reporting packages.
