4.0 Conclusion

Accordingly, the Commission has determined that, pursuant to 10 CFR 50.12(a), the exemption is authorized by law, will not present an undue risk to the public health and safety, and is consistent with the common defense and security. Also, special circumstances are present. Therefore, the Commission hereby grants Entergy an exemption from the requirements of 10 CFR 50.46 and Appendix K to 10 CFR Part 50, for ANO-2.

Pursuant to 10 CFR 51.32, the Commission has determined that the granting of this exemption will not have a significant impact on the quality of the human environment as published in the **Federal Register** on March 10, 2008 (73 FR 12779). This exemption is effective upon issuance.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The best bids and offers on the ISE Stock Exchange are displayed to the marketplace on a continuous basis. Additionally, the ISE offers incoming orders an opportunity to receive price improvement at the midpoint of the National Best Bid or Offer (“NBBO”) through its MidPoint Match (“MPM”) process. Specifically, before executing incoming orders against the ISE’s displayed bid or offer, the System checks MPM to see if there is contra-side interest that can provide price improvement. However, under ISE’s current rules, Equity Electronic Access Members may specify on orders that they do not want the orders to execute against MPM interest, thereby denying such orders the opportunity for price improvement.

The Exchange proposes to eliminate the “No MPM” order qualifier so that all inbound orders will be exposed to MPM interest and be afforded price improvement, when available, before executing against the ISE’s displayed quotations. The Exchange believes that elimination of the “No MPM” order qualifier is appropriate to assure that customers are provided the opportunity to interact with this additional source of liquidity and to receive price improvement whenever possible.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder. Specifically, the Exchange believes the proposed rule change is consistent with section 6(b)(5)³ of the Act, requiring that the rules of an exchange be designed to promote just and equitable principles of trade, and to remove impediments to and perfect the mechanism for a free and open market and a national market system, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange believes that the proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

A. By order approve such proposed rule change, or

B. institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

• Use the Commission’s Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
