[FERC Docket No. PF08–9–000]

**Notice of Pre-Filing Environmental Review for the Ruby Pipeline Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meetings; Ruby Pipeline, LLC**

March 28, 2008.

On January 31, 2008, the staff of the Federal Energy Regulatory Commission (FERC or Commission) initiated its pre-filing environmental review of the Ruby Pipeline Project, planned by Ruby Pipeline, LLC (Ruby). FERC staff is now beginning to obtain and evaluate information for the preparation of an environmental impact statement (EIS) that will assess and disclose the environmental impacts of the project, which would involve construction and operation of facilities by Ruby in Wyoming, Utah, Nevada, and Oregon. These facilities would consist of about 680 miles of 42-inch-diameter pipeline, 2 new compressor stations, and related appurtenant facilities. The EIS will be used by the Commission in its decision-making process to determine if the project is in the public convenience and necessity.

This notice announces the opening of a scoping period that will be used to gather environmental input from the public and agencies during the early stages of the project. Comments may be submitted either in written form or verbally. In lieu of or in addition to sending written comments, you are invited to attend the public scoping meetings scheduled in the project area. Further instructions on how to submit written comments and additional details of the public scoping meetings are provided in the *Public Participation* section of this notice. The scoping period will close on April 30, 2008.
