Proposed Project: Evaluation of the ACF Marriage and Family Strengthening Grants for Incarcerated and Reentering Fathers and their Partners—OMB No. 0990-NEW—Assistant Secretary for Planning and Evaluation (ASPE).

Abstract: The Office of Family Assistance within the Administration for Children and Families (ACF) is conducting a demonstration program called Marriage and Family Strengthening Grants for Incarcerated and Re-entering Fathers and their Partners (MFS-IP). These demonstration programs are funded to support activities in the areas of marriage strengthening and responsible fatherhood among incarcerated and

recently released fathers, their partners, and children. The Office of the Assistant Secretary for Planning and Evaluation (ASPE) is conducting an evaluation of these demonstration projects. The objective of the evaluation is to help to determine what types of marriage and family strengthening programs work best, what does not work, and what effects these programs may have on fostering healthy marriages, families and children for those involved in the criminal justice system. Information from the evaluation will assist federal, state, and community policymakers and patrons in deciding whether to replicate or redesign identified marriage and family strengthening program models.

The MFS-IP evaluation will assess the effects of marriage and family strengthening activities with incarcerated populations by comparing relationship quality and stability, positive family interactions, family financial well-being, recidivism, and community connectedness between intervention and control groups. Primary data for the evaluation will come from three waves of in-person data collection, including a baseline survey and follow-up surveys at approximately 6 and 12 months post-baseline. Data collection is expected to last 4 years, from the time the first participant is enrolled until the last 12-month follow-up survey is administered.
