Needs and Uses: Congress has mandated that after February 17, 2009, full-power television broadcast stations must transmit only in digital signals, and may no longer transmit analog signals. On December 22, 2007, the Commission adopted a Report and Order in the matter of the *Third Periodic Review of the Commission's Rules and Policies Affecting the Conversion to Digital Television*, MB Docket No. 07–91, FCC 07–228, to establish the rules, policies and procedures necessary to complete the nation's transition to DTV. With the DTV transition deadline less than 14 months away, the Commission must ensure that broadcasters meet their statutory responsibilities and complete construction of, and begin operations on, the facility on their final, post-transition (digital) channel that will reach viewers in their authorized service areas by the statutory transition deadline, when they must cease broadcasting in analog. The Commission wants to ensure that no consumers are left behind in the DTV transition. Specifically, the Report and Order requires full-power commercial television stations to use revised FCC Form 301 to obtain the necessary Commission approvals (i.e., construction permits and licenses) in time to build their post-transition facility.

- *Applications for post-transition facilities.* Full-power commercial television stations without a construction permit for their final, post-transition (DTV) facility must file an application to construct or modify that facility using FCC Forms 301.

- *Requests to transition early to post-transition channel.* Full-power commercial television stations may request authority to transition early to their post-transition channel using FCC Forms 301.

- *Revisions to FCC Form 301.* FCC Form 301 was revised to accommodate the filing of post-transition applications.

The FCC received approval under the “emergency processing provisions” of the PRA on January 7, 2008. The

requirements for this collection have not changed since we received approval.

broadcasting in analog. The Commission wants to ensure that no consumers are left behind in the DTV transition. Specifically, the Report and Order requires Noncommercial Educational (“NCE”) television stations to use revised FCC Form 340 to obtain the necessary Commission approvals (i.e., construction permits and licenses) in time to build their post-transition facility.

- *Applications for post-transition facilities.* NCE television stations without a construction permit for their final, post-transition (DTV) facility must file an application to construct or modify that facility using FCC Forms 340.

In addition, the Report and Order requires that stations that have applied to construct or modify post-transition facilities must use the Form 302–DTV to obtain a new or modified station license to cover those post-transition facilities.
