

up to five years if the patent claims a product, or a method of making or using a product, that has been subject to certain defined regulatory review, and that the patent may be extended for interim periods of up to a year if the regulatory review is anticipated to extend beyond the expiration date of the patent.

On March 24, 2008, Debiovision Inc., the exclusive agent of Debiopharm S.A. and Debio Recherche Pharmaceutique S.A., who is the exclusive licensee of the Administrators of the Tulane Educational Fund of New Orleans, Louisiana, the patent owner, timely filed an application under 35 U.S.C. 156(d)(5) for a fourth interim extension of the term of U.S. Patent No. 4,650,787. The patent claims the human drug product Sanvar® (vapreotide acetate). The application indicates that a New Drug Application for the human drug product Sanvar® (vapreotide acetate) has been filed and is currently undergoing regulatory review before the Food and Drug Administration for permission to market or use the product commercially.

Review of the application indicates that except for permission to market or use the product commercially, the subject patent would be eligible for an extension of the patent term under 35 U.S.C. 156, and that the patent should be extended for an additional one year as required by 35 U.S.C. 156(d)(5)(B). Because it is apparent that the regulatory review period will continue beyond the extended expiration date of the patent (April 25, 2008), a fourth interim extension of the patent term under 35 U.S.C. 156(d)(5) is appropriate.

A fourth interim extension under 35 U.S.C. 156(d)(5) of the term of U.S. Patent No. 4,650,787 is granted for a period of one year from the extended expiration date of the patent, i.e., until April 25, 2009.

Dated: April 9, 2008.

Jon W. Dudas,

Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) administers the Trademark Act, 15 U.S.C. 1051 *et seq.*, which provides for the Federal registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. Individuals and businesses that use, or intend to use such marks in commerce may file an application to register their marks with the USPTO. Registered marks remain on the register indefinitely so long as the owner of the registration files the necessary maintenance documents.

Such individuals and businesses may also submit various communications to the USPTO regarding their pending applications or registered trademarks, including providing additional information needed to process a pending application, filing amendments to the applications, or filing the papers necessary to keep a trademark in force. In the majority of circumstances, individuals and businesses retain attorneys to handle these matters. As such, these parties may also submit communications to the USPTO regarding the appointment of attorneys of record or domestic representatives to represent applicants in the application process, the revocation of an attorney's appointment, and requests for permission to withdraw from representation. Applicants and registrants may also submit change of owner's address forms requesting that the USPTO amend the record of an application or registration by entering a new address for the applicant or registrant.

The rules implementing the Trademark Act are set forth in 37 CFR Part 2. In addition to governing the registration of trademarks, the Act and rules also govern the appointments and revocations of attorneys and domestic representatives. The trademark rules provide the specifics for filing requests for permission to withdraw as the attorney of record. The requirements for changes of the owner's address are not governed by the trademark rules, but are outlined in the USPTO's procedures. The information in this collection is available to the public.

The information in this collection can be submitted in paper format or electronically through the Trademark Electronic Application System (TEAS). However, there are no official paper forms for these items. Individuals and businesses can submit their own paper forms, following the USPTO's rules and guidelines to ensure that all of the necessary information is provided. This collection contains three electronic forms.

II. Method of Collection

Electronically if applicants submit the information using the TEAS forms. By mail or hand delivery if applicants choose to submit the information in paper form.

III. Data

OMB Number: 0651-0056.

Type of Review: Extension of a currently approved collection.

Affected Public: Primarily business or other for-profit organizations.

gather the necessary information, prepare the applications, and submit the completed application to the USPTO. The time estimates shown for the electronic forms in this collection are based on the average amount of time needed to complete and electronically file the associated form.
Estimated Total Annual Respondent Burden Hours: 12,491 hours.

Estimated Total Annual Respondent Cost Burden: \$3,797,264. The USPTO believes that associate attorneys will complete these submissions. The professional hourly rate for associate attorneys in private firms is \$304. Using this hourly rate, the USPTO estimates that the total respondent cost burden for this collection is \$3,797,264.

Customers incur postage costs when submitting the non-electronic information to the USPTO by mail through the United States Postal Service. The USPTO estimates that the majority (98%) of the paper forms are submitted to the USPTO via first class mail. Out of 17,778 paper forms, the

USPTO estimates that 17,422 forms will be mailed, with a first class postage cost of 42 cents (as of May 12, 2008). Therefore, the USPTO estimates that the total non-hour respondent cost burden for this collection, in the form of postage costs, is \$7,317 per year.
