SUPPLEMENTARY INFORMATION:

Summaries for each FAR rule follow. For the actual revisions and/or amendments to these FAR cases, refer to the specific item number and subject set forth in the documents following these item summaries.

FAC 2005–25 amends the FAR as specified below:

Item I—Federal Procurement Data System Reporting (FAR Case 2004–038) (Interim)

This interim rule amends the Federal Acquisition Regulation (FAR) Subpart 4.6 to revise the process for reporting contract actions to the Federal Procurement Data System (FPDS). FPDS will allow agencies to obtain Federal procurement reports as well as several workload reports designed specifically for first-line supervisors. The use of the Federal reports will alleviate the need for individual agencies to collect, verify, and distribute statistics for a host of requirements such as the Small Business Goaling Report (SBGR), the Performance-Based Acquisition (PBA) report, the Central Contractor Registration (CCR), and the Resource Conservation and Recovery Act (RCRA) report. The rule provides questions and answers to facilitate the public’s understanding of the changes proposed in the interim for reporting contract actions under FAR Subpart 4.6.

Item II—Electronic Subcontracting Reporting System (eSRS) (FAR Case 2005–040) (Interim)

This interim rule amends the Federal Acquisition Regulation to require that small business subcontract reports be submitted using the Electronic Subcontracting Reporting System (eSRS), rather than Standard Form 294 - Subcontract Report for Individual Contracts and Standard Form 295 - Summary Subcontract Report. The eSRS is a web-based system managed by the Integrated Acquisition Environment. The eSRS is intended to streamline the small business subcontracting program reporting process and provide the data to agencies in a manner that will enable them to more effectively manage the program.

Item III—Revisions to the Defense Priorities and Allocations System (DPAS) (FAR Case 2006–033)

This final rule amends the language in the Federal Acquisition Regulation (FAR) to reflect the President’s delegation of the Defense Production Act’s priorities and allocations authorities in Executive Order 12919, and the current provisions of the Defense Priorities and Allocations System (DPAS) regulations of the Department of Commerce in 15 CFR Part 700.

FAR changes incorporated in parts 2, 11, 18, 52, and 53 benefit both the Government and industry in the

receiving of timely and proper delivery of industrial resources. Contracting officers should take notice of the changes in the FAR especially the changes to the Standard Form (SF) 26, Award/Contract and SF 1447, Solicitation/Contract, and use the revised SF 26 and SF 1447 that reflects the 15 CFR 700 citation and 2008 edition date change.

Item IV—Use of Products Containing Recovered Materials in Service and Construction Contracts (FAR Case 2005–039)

This final rule amends the Federal Acquisition Regulation (FAR) to clarify language within the FAR regarding the use of products containing recovered materials, pursuant to the Resource Conservation and Recovery Act of 1976, and Executive Order 13101 “Greening the Government Through Waste Prevention, Recycling, and Federal Acquisition.” The rule also prescribes a new clause for use in service or construction contracts, to ensure that contractors deliver and make maximum use of products containing recovered material.

Item V—Representations and Certifications - Tax Delinquencies (FAR Case 2006–011)

This final rule amends the Federal Acquisition Regulation (FAR) to add conditions regarding refusal to pay delinquent Federal taxes to standards of

contractor responsibility, causes for suspension and debarment, and the certifications regarding debarment, suspension, and proposed debarment. The changes are intended to add clarity regarding the specific circumstances under which tax delinquencies are so serious that suspension or debarment should be considered. The changes originated in response to a request from the Senate Permanent Subcommittee on Investigations.

Item VI—Enhanced Access for Small Business (FAR Case 2006–031)

This final rule creates a different, higher dollar ceiling enabling small businesses to use the small claims procedure for appealing a contracting officer's final decision. Section 857 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109–364) changed the ceiling under the Contract Disputes Act from \$50,000 or less to \$150,000 or less for small businesses. The ceiling remains at \$50,000 or less for other types of businesses. The change to 41 U.S.C. 608 is a ceiling change only.

Item VII—Technical Amendment

An editorial change is made at FAR 1.603–1.

SUPPLEMENTARY INFORMATION:

A. Background

As of October 2003, all agencies were to begin reporting FAR-based contract actions to the modified system. During Fiscal Year 2004, members of the interagency Change Control Board, as well as departmental teams working on the migration of data from the old to new system, recognized both the opportunity to standardize reporting processes and the need to revise the FAR to provide current and clear reporting requirements.

In this interim rule, the Government is establishing its commitment for Federal Procurement Data System (FPDS) data to serve as the single authoritative source of all procurement data for a host of applications and reports, such as the Central Contractor Registration (CCR), the Electronic Subcontracting Reporting System (eSRS), the Small Business Goaling Report (SBGR), and Resource Conservation and Recovery Act (RCRA) data.

The enhanced FPDS was put into production on October 1, 2003 by implementing newer technology to report contract actions. The old system had 48 data elements; the new system has 145+ elements, including who funds the contract. The new system has the ability to receive data and provide data to other applications used in the procurement community, allowing the Government to give “credit” to the agency that funds the contract action. The system is also an enabler ensuring that metrics are consistent when comparing one department, service, or organization to another.

Small agencies that do not have the staff or resources necessary to purchase the automated contract writing application necessary for reporting contract actions as required by this interim rule are encouraged to partner with a large agency and become a subscriber on their system. For information about frequently asked questions, see <https://www.fpds.gov>.

The rule amends the FAR by:

1. Revising FAR 1.106 to change the FAR segment 4.602 to 4.605, and 4.603 to 4.607.
